GREENBELT, MARYLAND

Thursday, August 22, 1963

## QUESTIONS FOR CANDIDATES

In order to help the voters make an informed choice at the coming city election for councilmen on Tuesday, September 17, the *News Review* has prepared the following series of questions which we are inviting the individual candidates to answer. Their replies will be published in the September 5 issue of the paper.

- (1) Are you satisfied with the present level of services provided by the city government with respect to maintenance of roadways, playgrounds, parks, and ball fields, collection of garbage, recreation programs, parking facilities, etc? If, to pose a hypothetical question, the city received a gift of \$20,000 from a philanthropist, which services in your opinion, would have the greatest call for these funds?
- (2) The Greenbelt police department is said to be understaffed and in need of additional manpower to patrol the center during evening hours and to meet the additional law enforcement needs arising from a growing community. What are your views on the present and future role of the police department in Greenbelt and on requests for additional personnel?
- (3) What provisions would you make for the urgently needed capital improvement program that was defeated in last November's referendum?
- (4) A petition to rezone the 56-acre triangular tract (the "Golden Triangle") bounded by Kenilworth Ave., Greenbelt rd., and the Circumferential Beltway from RR (rural residential) to C-2 (General Commercial) for use as a regional shopping center has been referred to city council for recommendations. What are your views on the development of this vacant land?
- (5) At various times, high-rise or multiple-story apartments have been suggested for some of the vacant land, specifically, adjacent to the Greenbelt Lake and along Glenn Dale road on the eastern side of the Baltimore-Washington Parkway. How do you feel about this?

## Five More Citizens File for City Council

A total of 12 candidates will compete for the five vacancies on the city council in the election on Tuesday, September 17. The latest candidates to file nominating petitions before the deadline last Monday were David C. Champion, 11-D Ridge, William L. Hoff, 71-E Ridge, Gerald E. Boisvert, 7-C Crescent, Clifford H. Simonson, 8-C Ridge, and Edgar L. Smith, 8-G Laurel Hill. They join the following seven candidates who previously filed: Francis White, Ben Goldfaden, William Phillips, Richard Pilski, Mrs. Rita Fisher, Joseph O'Laughlin, and Lewis Bernstein. All the incumbents of the present council are running for reelection. Edgar Smith is a former councilman.

Following are the biographies of candidates which have not previously been published. (All biographies will be reprinted in the *News Review* issue just prior to the election.)

### CHAMPION

David C. Champion has served on the City Council since 1959 and is now seeking a third consecutive term as Councilman.

Champion is an auditor with Peet, Marwick Mitchell & Co., the nation's largest accounting firm. Prior to this, he was associated with utility, oil and gas consulting firms in Washington, D. C. for a period of five years. He is a graduate of the University of Maryland where he received his B.S. degree from the College of Business and Public Administration.

Champion's past civic activities include a term as member of the audit committee of G.H.I., officer of the local Lions Club, Greenbelt Junior Chamber of Commerce and the North End PTA. He has served as auditor and/or tax advisor to the following Greenbelt organizations: Lions Club, Junior Chamber of Commerce, North End PTA, Cooperative Kindergarten and Foreign Language Association. He presently is a member of the Lions, American Legion and the Junior Chamber of Commerce.

Former residents of Minnesota, he and his wife Corrinne have four children and reside at 11-D Ridge Road. They are members of the National Metropolitan Memorial Methodist Church.

CANDIDATES, page 3

## New City Radar Units Trap 73 Speeders

Last Monday morning, with the assistance of the Maryland State Police, Police Chief Robert O'Brien arranged for radar units to be activated in several locations throughout the city. As a result a total of 73 vehicles were stopped. Sixty operators were issued warning tickets for speeding in excess of the 25 mph limitation, 12 operators were issued summons for speeding, and one operator was issued a summons for speeding and for having an expired operator's permit.

Chief O'Brien advised that the radar units will be operated periodically and at unannounced times throughout the city.

## Special Meeting

A SPECIAL MEETING OF City Council of City of Greenbelt, Maryland, will be held Monday, August 26, 1963, at 8:00 P.M. for consideration of the following:

1. Award of insurance — Automobile coverages and Special Property Floater.

2. ORDINANCE Appropriating Funds from the Special Public Building Construction Fund.

## WHAT GOES ON

Thursday, August 22, 7:45 p.m. Greenbelt Homes, Inc. Board Meeting.

Friday, August 23, 6 p.m., Community Church. Potluck Supper for parents and children. 8:30 p.m. Duplicate Bridge-Hospitality Room.

Saturday, August 24. Adelphi Pool. All-Star Swimming Meet.

3 p.m. Braden Field. Boys Club Football Registration.

Sunday, August 25, 11-12 a.m. JCC Sunday School Registration.

8:30 p.m. Pool. Swimming Team End-of-Season Party.

Monday, August 26, 7 p.m. Little League Invitational Tournament.

8 p.m. Special City Council Meeting.

8:30 p.m. Community Church. Community Service of Prayer and Information for the March on Washington.

## Popularity Contestants On Television, Radio

The ten contestants in the Greenbelt Popularity Contest will appear on the Buddy Dean television show next Saturday, August 24. The girls will depart for Baltimore from the Center at 1 p.m. and will appear on the show from 2:30 p.m. to 4 p.m. The station is WJZ-TV, Channel 13. They will also appear on the Harden and Weaver radio show at 8 a.m., August 31, on station WMAL.

Entries closed Monday, August 19, with ten contestants sponsored by local organizations. Votes are being collected at the Co-op store. The winner will be crowned Festival Queen on September 1.

Miss American Legion is Jerri Atkins. Jerri is 16 years old and attends High Point High School. She is a majorette and is on the Student Council Committee.

Miss American Trophies is Carol Sholtis. Carol is 17 years old and attends George Washington High School. Bowling is one of her favorite activities.

Miss Ben Franklin is Carolyn Mazitis. Carolyn is 16 years of age and attends High Point High School. Her hobbies include dancing and bowling.

Miss Greenbelt Homes is Barbara Branch. Barbara is 16 years old and attends High Point High School. Sewing is among her favorite activities.

Miss Greenbelt Theater is Cheryl Meier. Cheryl is 16 years old and attends High Point High School. Cheryl enjoys swimming, dancing, and music. She is employed at the Greenbelt Theater.

Miss Greenbelt Tobacco Shop is Bonnie Pate. Bonnie is 18 years old and was graduated last spring from High Point High School. Her hobbies include singing and playing the piano.

Miss Greenbelt Volunteer Fire Department is Sharon Lee Ogden. Sharon is 18 years old and attends High Point High School. Her favorite activity is being a majorette.

Miss Lions Club is Mary De Marzo. Mary is 16 years of age and attends Elizabeth Seton. She is studying the accordion and enjoys dancing and music.

Miss Little League is Nora Spaulding. Nora is 16 years old and attends Notre Dame Academy in Washington. Nora's hobbies are writing and drawing.

Miss Teen Club is Mary Barcus. Mary is 17 years old and attends Regina High School. Mary teaches swimming at the Greenbelt Pool and belongs to the Future Teachers Association.

## Council Votes Salary Raise In Lengthy Business Session

by Charles T. McDonald

An agenda of 21 items, including three bid openings, produced a lengthy City Council meeting Monday evening. Under written communications, two resignations were read, one from Jack Downs as a member of the Advisory Planning Board and the other from Edgar L. Smith, city solicitor. Smith's letter announced that he had become a candidate for City Council and the City Charter prohibits an officer or employee of the city from continuing in such position after becoming a candidate for public office.

By a vote of four to one (Councilman Champion dissenting), Council approved a resolution to amend the City Charter to provide for an increase in salary for the mayor and councilmen. The new salaries, which cannot become effective until a new council term, provide for the salary of mayor to be raised from \$750 to \$1250 and the salaries of the other councilmen from \$750 to \$1000. Councilman Champion expressed his principal objection to the large increase for the mayor sitting under a Council-Manager form of government.

In the bid openings for insurance, Anthony Madden, representing Nationwide Insurance, was awarded the bid for General Compensation and Workman's Compensation and the Fireman's Fund was to be awarded the Auto Fleet policy and related items after the City Manager had determined that such a separation was acceptable and inclusive.

The bid for Road Surfacing was awarded to A. H. Smith, with a low bid of \$6,752.90. The low bid for the work of paving the parking lot north of the Co-op store was from the Drummond Co., \$14,485. However, the bidder failed to fill in the bid form extra items that could affect the final price if some unforeseen conditions occur during construction. The City Manager was instructed to review the bid with the design engineer and report back to Council.

### Agreement with Co-op

The City Manager explained that the low bid was less than the engineer's estimate and that additional certificates of indebtedness from the Building Fund would have to be cashed to provide for the expenditure. This statement provoked a question from Harvey Geller as to the propriety of using the Building Fund money for paving a parking lot primarily for use of the Co-op Store. Mayor White explained that part of the transaction in which the City had acquired the parcel of land on which the new City Office building is being erected included an agreement to build a parking lot north of the Co-op store.

The Labor Day Youth Festival Committee, represented by Mrs. David W. Lange, petitioned City Council to provide the Center platform and stage, as well as additional booths, and also the use of the City bus to transport the Festival Queens to Baltimore for a television appearance on August 24.

A lengthy discussion ensued, principally because the City had turned over the booths to the Fire Department with the understanding that they would maintain them and rent them out to the various organizations of the community. It was pointed out that the building of new booths would put the city back in the business of supplying booths for the various organizations of the community for their individual fund raising activities. Bud Attick, Public Works Director, pointed out that special sized booths would be most desirable this year in order to build around the flower beds in the Center Mall and that under this condition the lumber might be reused for other purposes at a later date. The City Manager was instructed to work out the arrangement of booths with the Festival Chairman and determine what funds might be forthcoming from the Festival Committee for the purchase of lumber. The use of the bus was not approved but referred to the Festival Chairman and the Volunteer Fire Department.

### Kenilworth Extension

The City Manager reported that at a meeting of the State's Roads Commission and the County Commissioners to decide on the next four years' comprehensive road program, the continuation of Kenilworth Road through Beltsville

Farm to Route #1 was included.

Mayor White questioned the City Manager as to the progress of widening Northway Rd. at Hillside, requested at the last meeting. The Manager reported that the work had started that day. This provoked the question as to where the funds were to come from, inasmuch as this was one of the projects included in the Capital Improvements referendum which was voted down by the citizenry and was to be partially financed by the abutting property owners. Mayor White explained that this was one of the items high on the priority list of the Advisory Planning Board because of the driving hazard involved, and was of such a nature that it could be worked in with the regular road maintenance program. He requested the Manager to refer this item to the G.H.I.-City Council Coordinating Committee to determine whether or not G.H.I. would be willing to accept part of the cost.

By unanimous decision, the City Council approved the Ordinance to establish a Personnel System.

Councilman Phillips submitted the name of Ronald L. Hamm, 12-L Ridge, as a candidate for the Advisory Planning Board, giving as his principal qualification the fact that he was a member of the Volunteer Fire Department and that the views of that organization should be represented on the Planning Board.

An Ordinance to regulate Littering was approved for first reading.

### Campaign Literature

An Ordinance requiring all campaign literature to identify the person, committee, etc. responsible for its publication or distribution was passed by a four to one vote, with Councilman Phillips dissenting. He expressed his view that it was unconstitutional. Bernard Bordenet, a citizen, spoke against the Ordinance because of its ambiguities and stated it was not similar to the State law, since it refers to referendums and not candidates.

To a resolution establishing a uniform compensation plan for City employees all members of Council approved. The plan provides a salary increase for all employees averaging 6.8%, but because of the reduction in the number of holidays to be enjoyed by City employees the net increase is about 5%.

In a second personnel measure, the Manager asked approval of a proposed Position Classification plan. In a third item, an Ordinance was approved to repeal previous ordinances establishing compensations. A resolution was passed to transfer funds to provide for the payment of the salary increases.

## City Notes

City crews have been widening Northway just east of Hillside. Springhill Lake now has its lake—behind the community building now under construction. This week's rain has already filled it.

The special summer crew has been clearing out debris and scrub growth from the City's property between 4 and 6 courts of Ridge.

Concrete pouring of the first floor of the municipal building was begun Tuesday.

### Dean Named ABC Inspector

Edgar L. Smith, president of the Democratic Club, announced on Tuesday the appointment of Walter "Bud" Dean as Liquor Inspector for the Prince Georges County Alcoholic Beverage Commission.

Dean, a long time resident of Greenbelt, resides at 62-F Ridge. He is chairman of the Recreation Advisory Board, president of Boy's Club and Little League, Eastern Regional Director of the Lassie League, a member of the Prince Georges County Youth Committee, and Vice-president of the Democratic Club.

## Farewell, Harry

Although it is not our practice to editorialize about a departing resident, we feel that there has to be an exception in the case of Harry Zubkoff. His impact on both the *News Review* and the community during his approximately 14 years of residence here has been unequalled. He has served as a member of the GCS (Co-op) board of directors in his early years here, as a member of the board and then president of Greenbelt Homes, Inc., and as editor and a member of the editorial board of *News Review*, while at the same time he has been unstinting in giving his time to the Jewish Community Center.

Zubkoff has been widely known as a hard worker with a high sense of responsibility for getting done what he sets out to do. As a recent example, the success of Greenbelt's silver anniversary celebration last summer and fall was due in large part to Zubkoff's tireless efforts as chairman of the silver anniversary committee, for which he was formally commended by the city council.

It is, of course, the *News Review* which received most of his devotion — until he became president of GHI 14 months ago — and which has benefited for so long from his guidance. No one on the present staff has been connected with the newspaper as long as he has. In fact, none of us were around to remember the earlier days when he kept the newspaper alive by putting it out virtually singlehanded. Later the support of the community saved the *News Review* from extinction by providing financial support, but the fact that the newspaper was worth saving was due primarily to Harry Zubkoff.

In fact, he has been so intimately associated with the *News Review* (he suggested the title when it was decided to drop the old name *The Cooperator*) that a number of people have come to regard it as "his" newspaper. Those people who have assumed that he exercised strong control over the operation and editorial policy of the *News Review* could not be more wrong. Zubkoff long ago recognized and constantly preached that new staff members could only be developed if they were given a voice in the operation of the newspaper and in making policy decisions as soon as they showed an aptitude and an interest. As a result, we would say that among the major organizations in the community the *News Review* is one of the easiest in which newcomers can win acceptance. This has been one of the big secrets of our continued survival taught us by Harry.

If Harry's relationship to the *News Review* had indeed been one of personal control, as a few have suggested, then the newspaper would now be on the verge of a collapse or at least a radical change. There is no question that we will miss his advice drawn from his long experience. However, Harry's legacy to us, as he prepares to move to a new community, will result in our readers hardly noticing his departure. That legacy is the philosophy that a community newspaper should not be the expression of the personality or opinions of one or a few people but rather reflect the interests and personality of the entire community.

If we should falter in this goal after he leaves, we are sure that the ghost of Harry Zubkoff will come back to haunt us — in the form of a letter to the editor.

### A WAYSIDE PARK

Letter to the Editor:

For the past twelve years I have enjoyed walking through the woods around Greenbelt Lake. Many times I have stopped by Indian Springs and enjoyed the cool spring water. There are not many natural springs in this vicinity and it makes me sad to observe the deplorable condition which the springs have been allowed to fall into. On the hill above the springs is a small cemetery and I don't suppose that very many people in Greenbelt have ever seen the springs or the cemetery. When I first visited the cemetery there was a bronze marker on a tombstone, but someone has removed the marker. Why couldn't the springs be cleaned up and a little wayside park be made around them for the enjoyment of Greenbelt residents and others?  
Henry P. McNeil

### Diaper Derby

The "Diaper Derby" for babies who have not yet reached the walking stage will be held Monday, September 2, at 2 p.m. at Braden Field. Only "crawlers" are eligible to compete for the three prizes. Entrants should come to the field about 1:45 p.m.

### Teen Club News

The officers of the Teen Club voted to have a different type of membership plan for the upcoming season. A person purchasing the regular membership must also pay to enter all Teen Club functions. A person buying the special membership at a higher price receives benefits too numerous to mention, but alas one must know what he is paying for. The special member enters the Teen Club free of charge except for special dances and events.

### Festival Contests Set

Horse-shoe pitching and golf chipping are among the Greenbelt Festival Contests to be held during the Labor Day weekend.

Horse-shoe pitching for boys and men will take place on August 30, 31, and September 2. Golf chipping will be held on Sunday, September 1 at Braden Field. Entrants are urged to sign the entry list on the Co-op Bulletin Board.

### Variety Show

One of the gala features of the Labor Day festivities will be a performance of local and area entertainment artists. Experienced performers are encouraged to contact Mrs. Elizabeth Wuermsler at GR 4-6012. Mrs. Wuermsler is seeking unusual acts, dramatic, animal, magic, as well as the song and dance variety.

### Salmonella Cases Reported

The Prince Georges County Health Department reports that a number of cases of Salmonella Derby, one of the many types of intestinal diseases, have occurred recently. There is strong epidemiological evidence that contamination through cracked or unclean eggs was responsible for a high percentage of the present cases of this disease.

The U S Public Health Service has issued a warning regarding the use of cracked or soiled eggs. Although it is possible for the bacteria to penetrate the shell of the egg, it is more likely that it enters to penetrate the shell of the opened. Thorough cooking — until the white is firm — will render the food safe.

The Salmonellae are a sub-group of a large family of bacteria which can infect the intestinal tract of man and animals. Salmonella infection usually results only in a mild diarrhea but can be a serious blood infection. Through special laboratory procedures, it is possible to identify some four hundred different types of this organism. Derby is one of these types.

### Community Church News

Over seventy children are participating in the Vacation Church School at the Greenbelt Community Church. Each child is taking part in a sharing project, bringing a bar of soap and a new washcloth and making attractive health kits as gifts to be sent overseas through Church World Service.

On Friday, August 23 there will be a Pot Luck Supper for parents and children at the church at 6 P. M. Families will eat outside on the church grounds. If the weather is unfavorable, they will eat inside.

A Community Service of Prayer and Information for The March on Washington will be held in the Community Church on Tuesday, August 27 at 8:30 p.m. Ministers and members of all Greenbelt Churches and the Jewish Community Center are invited to attend. This is a non-sectarian, non-denominational meeting. The latest information regarding the March the next day, transportation and participation will be discussed. The Community Church will be on a stand-by basis on the day of the March for sleeping accommodations for out of town participants in the March who will have to stay overnight. The Church Council has voted participation in persuasion, negotiation, reconciliation and in non-violent responsible demonstrations for racial justice; to seek now the enactment of appropriate civil rights legislation in the areas of education, employment, housing, public accommodations and voting and as white Christians to impress their concern for racial justice now upon members of Congress. Such action has also been taken by the Council of Churches of Greater Washington, the Interreligious Commission on Race in which participate the Roman Catholic Church and representatives of the Jewish Synagogues of the Greater Washington Area.

### THE GREENBELT COMMUNITY CHURCH

Rev. Kenneth Wyatt, Minister

Friday, 6 p.m. Vacation Church School Sharing Program and Pot Luck Supper.

Sunday - 9 a.m. Adult Bible Classes. 10 a.m. Morning Worship and Church School for Nursery through Grade 6.

10 a.m. Junior and Senior Highs attend Church.

(Affiliated with United Church of Christ)

### Swim Team Comes in 9th

Although Greenbelt did not bring home a trophy last Saturday, our Swim team did come in ninth in the Cheverly relays held August 17, in the Cheverly pool. The first four teams won trophies; they were: Cheverly, Silver Spring Y, Adelphi, and Oxon Hill. A special event trophy went to Silver Spring Y. A, B, and C divisions of Princemont League participated. Greenbelt is a member of B division. Greenbelt was handicapped in several events because some of our regular swimmers were on vacation. The swimmers are to be congratulated, however, for coming in in the first ten.

Next Saturday, August 24, the All-Star meet will be held in Adelphi Swimming pool. Those who placed first or second in the Division Championships will be trying for first, second, or third place trophies.

### High Holy Days at JCC

The Jewish Community Center of Prince Georges County will observe the High Holidays at its building on Ridge and Westway Roads. Cantor Sholom Jacob Pomrenze will officiate for the eighth year. Cantor Pomrenze served as Cantor and Director in a number of congregations in Chicago and Washington, D. C. He was Director of Education of Temple Isaiah Israel in Chicago; Adas Israel Congregation in Washington; and for ten years served as principal of the Sunday School, Montgomery County Jewish Community Center.

Rosh Hashonah services will be held September 18, 19, 20, and Yom Kippur services start September 27 through September 28.

For information call 474-5811, 474-7145.

**CANDIDATES from Page 1**

**HOFF**

Hoff, a native Marylander born and reared in Cumberland, has lived for ten years in Greenbelt. He graduated from the University of Maryland in 1949 with a degree in Business and Public Administration. Since then he has been manager of the University's Student Union, gathering center for thousands of students at College Park.

Hoff is chairman of the city's Personnel Board and a member of the Nominations and Elections Committee of GHI. He is a member of Mowatt Methodist Church, American Legion, 29th Division Association, District of Columbia Civil War Roundtable, Society of Personnel Administration, National Association of College Unions, Sigma Nu Fraternity, Omicron Delta Kappa (National honor society). He was past president of Chapter 21 of the Maryland Classified Employees, and made for that organization a nationwide survey of longevity pay programs in various States. Hoff is a veteran of World War II.

Hoff is married to the former Amelia Ann Enkemann, and has two daughters, Carol Ann and Barbara Ellen.

**BOISVERT**

Born in Manchester, New Hampshire, in 1925, he came to Greenbelt in 1953 after a longtime residence in D. C. A product of public schools, he has attended Venard College, Catholic University and George Washington University, and is a Phi Delta Kappan. He is certificated in neuropsychiatry and possesses degrees in sociology and administration. He did post-graduate work at American University and now is undertaking doctoral studies at Maryland University.

A Navy veteran of World War II and Korea, Boisvert was employed by the D. C. Public Health Department for ten years as charge Nursing Assistant in Psychiatry prior to entering the teaching profession. He is presently teaching "Problems of Democracy" at High Point High School and is chairman of the Social Studies Department.

He has been active in the Washington Center for Metropolitan Studies and the National Council for Economic Education. He has served as alternate on the Board of Supervisors and currently is a member of the Board of Directors of Twin Pines Savings and Loan Association. He has been a delegate in the G.C.S. Congress. Activities also include local, state and national sociological and educational associations.

His wife, Marie, is active in community and church affairs. They and their four children reside at 7-C Crescent Road.

**SIMONSON**

Simonson was born and raised on a farm in North Dakota. He and his wife Evelyn moved to suburban Washington immediately after their marriage in 1948. They came to Greenbelt 6½ years ago, residing at 8-C Ridge with their five children: Laura and Linda (twins) 13, Jenny 9, Carl 7, and Judy 1.

Simonson attended North Dakota State Agricultural University, received a B.S. at the University of Tennessee, and earned his M.S. at the University of Illinois. In 1962 he completed his Ph.D. in Soils, with minors in Geography and Chemistry, at the University of Maryland. He is listed in American Men of Science and Who's Who in the East.

The wartime period was spent in chemical warfare research for the Office of Scientific Research and Development. Graduate assistantships before and after the war included both mapping soils and the teaching of analytical chemistry (Quantitative and Qualitative Analysis). From 1948 to the present, except for a foreign assignment to conduct soil surveys in British Guiana, Simonson has been employed by the Department of Agriculture.

Simonson is vice chairman of the Advisory Planning Board, and since its inception three years ago has served as Chairman of its Stand-

**Giese Addresses Swimmers**

The parents of the swimmers were addressed last Thursday by City Manager, James K. Giese, who outlined the features of the proposed improvements and expansion of the swimming pool. All members present gave their strong support for the coming referendum. Mr. Geller and Mr. McMahon agreed to co-chair a committee which will report on desirable features for the renewed pool from the standpoint of competitive swimming.

Formal elections were postponed till the beginning of the next swimming season; in the meantime Mrs. Penney and Mrs. Jones will carry on the necessary administrative work.

Charles G. Purves of the Southern Maryland Aquatic Club gave information on the possibility of winter swimming in his pool. The meeting also considered the feasibility of using the Seventh Day Adventist Pool in Takoma Park. It was decided to contact all the members to find out the number of those interested in winter swimming.

The end-of-season party will be held on Sunday, August 25, at 8:30 p.m. at the swimming pool. Various water games, the awarding of trophies and refreshments will highlight this event. If information is wanted Mrs. Berman, GR 4-6426, can be called.

**Little League Invitational**

The Greenbelt Little League will open its eleventh Invitational Softball tournament on Monday, August 26 at 7 p.m. Featured will be some of the finest teams in the Washington-Baltimore area.

All proceeds will go to the Little League. Greenbelters are urged to come on down and enjoy the games.

ing Committee on Residential, Industrial, and Commercial Land Development. He is currently a member of the Greenbelt Homes Member Relations Committee, Vice President of Greenbelt Junior High School PTA, and a Deacon in the Greenbelt Community Church. He is a former GCS Congressman, has served in the Greenbelt Center School PTA, and backstops his wife in the Foreign Language Association of Greenbelt and the Greenbelt Cloverbuds 4-H Club.

**SMITH**

Edgar L. Smith is an attorney engaged in the general practice of law in Greenbelt. He has an Associate of Arts Degree from Maryland State Teacher's College, a Bachelor of Science Degree in Business Administration from the University of Maryland. He received his LL B degree in law from the University of Maryland's Law School and was admitted to practice by the Maryland Court of Appeals in 1959.

Smith served on the Greenbelt City Council from 1959-1961. He has been Greenbelt's City Solicitor, and is presently an assistant Attorney General for the State of Maryland.

Prior to his graduation from law school he served as administrative head of 131 unincorporated "towns" in Prince Georges County. In this capacity he supervised and administered such municipal services as street and highway lighting, refuse collection, urban and rural street and highway construction, and storm drainage systems to the ad hoc areas of the county.

Smith is president of the Greenbelt Democratic Club and president of the Greenbelt Businessmen's Association. He was state judge advocate of the American Legion in 1961-62 and treasurer of the County Engineer's Association of Maryland from 1959-1961. He is an associate member of the Greenbelt Volunteer Fire Department and Rescue Squad, a member of the Greenbelt American Legion Post #136 and is a member of the 21st District Democratic Club, the Young Democrats and the Citizens Democratic Club. He is a member of the board of directors of Greenbelt Boys Club.

Smith, a ten year resident of Greenbelt, is married to the former Paula Elaine Phillips of Salisbury, Maryland and has a daughter Sandra Lynne, 13 years.

**Infants Need Protection During Heat Waves**

Infants may suffer from heat prostration when outdoor temperatures remain at 90 degrees or above for several days, and a significant number of cases of heat prostration in infants occurred during Baltimore's recent heat wave, according to Dr. Edward Hopkins, consultant pediatrician with the Bureau of Preventive Medicine, Maryland State Department of Health.

He added that this condition is more common during periods of unseasonable heat, when weather changes abruptly from cold to hot, but said that infants may be affected by heat prostration at any time during the summer if extremely hot weather is prolonged.

Dehydration is one of the principal contributors to heat prostration, and an infant's water reserves are extremely limited in comparison to an adult's, the Health Department pediatrician explained. Unusual heat may cause an infant to develop increasingly high body temperature, resulting in an excessive loss of fluids. In order to prevent a fluid loss greater than the baby's intake, Dr. Hopkins recommended an increase of water in the baby's daily diet of from four to eight ounces a day for small infants up to three months, and as much as eight to twelve ounces daily increase for larger infants from eight to twelve months. This extra water may be given by a small additional dilution of the formula.

In addition to the slightly increased dilution of formula, mothers can protect their babies from heat prostration by observing basic hot weather precautions such as:

- Keep infants in the coolest possible place, indoors or out, but not in direct sunlight. The hottest place in a house usually is nearest to the roof; therefore, the baby should be on a lower floor.

- Locate the baby in the path of gently moving air, supplied by fans from some distance if necessary.

- Use minimum clothing; a diaper is sufficient.

- Have a thermometer available to check temperature if necessary.

- Give two or three lukewarm sponge baths in addition to the baby's regular bath.

Although the symptoms for heat prostration also may indicate other conditions, the pediatrician said that parents should be alert during hot weather for unusual irritability, lethargy, refusal to accept food or liquids, listlessness, hot dry skin, diarrhea, vomiting and temperature elevation. Any one of these, or a combination, may precede or contribute to heat prostration, and parents are advised to consult their pediatrician or family physician.

**Vet Recipients To Be Quizzed**

Dependent parents of deceased veterans receiving service-connected death compensation payments from the VA will receive a special dependency questionnaire with their monthly checks on or about August 31, George L. Holland, Manager of the Veterans Benefits Office, VA, 21st and Constitution Avenue, N. W., Washington 25, D. C., said today.

At the same time, veterans who are receiving additional service-connected disability compensation because of a dependent parent or parents will also receive the dependency questionnaire, Holland said.

At the time parents were placed on the compensation rolls, they were definitely determined to be dependent. The purpose of the questionnaire is to establish the fact that they have continued to be dependent and are still eligible for payment.

Recipients of the questionnaire are expected to return them before October 31. The VA advises recipients that all questionnaires must be returned by the deadline date.

Since the questionnaire cards will be handled by machinery, recipients are requested not to fold, cut, mutilate or trim them in any manner.

**The Police Blotter**

A night watchman at one of the construction sites in Greenbelt has reported juveniles attempting to vandalize the area. Chief O'Brien cautions parents to instruct children to stay away from these sites for safety reasons and the possibility of being charged with trespassing.

A wallet was found by a youngster near the Co-op store last Wednesday and turned in to the police office. It can be claimed upon proper identification.

A resident of Springhill Drive complained to police that heavy construction equipment was in operation after 11 p.m. last week. The workmen were advised to quiet down.

A resident of North End notified police last Thursday that her lawn furniture had been smashed sometime during the night. It was considered an act of vandalism.

The assistant manager of one of the stores in the Center brought a twelve year old boy to the Police office and stated that the youth had been caught shoplifting. The man declined to prosecute and the merchandise was recovered.

On Friday morning, it was discovered that an unlawful entry had been made into the Youth Center gym. Police ascertain that this occurred sometime between the hours of four and seven a.m. An unsuccessful attempted entry was discovered on Sunday morning during a regular police check of commercial establishments and city property.

A 20" boy's bicycle was reported stolen from in front of one of the stores at the Center while its owner was in the store. It is described as red with white trim and bearing a Greenbelt tag.

Saturday morning, a reported breaking and entering was received from the G.H.I. Offices on Hamilton Place. It was reported that entry was gained and a small sum of money had been taken. An open investigation is still being conducted.

Sunday morning, a report was received from a resident of Ridge Road that she found her car, a 1955 Pontiac, up on jacks with the two front wheels missing.

A lady from Hillside called police to inform them that she had driven off from the Beltway Plaza parking area forgetting to remove her purse from atop the car. She had done this while putting articles in the car. Apparently, when she remembered what she had done, the purse had fallen off. The purse was turned in to County police in Hyattsville three hours later by another citizen who found it.

Two dogs were reported lost last week. One is described as a female Border collie, predominantly black in color. It was last seen Friday in the vicinity of Ridge Road. The other dog is a tri-colored male beagle which was reported missing from Ridge Road since last Saturday afternoon.

A Baltimore citizen, staying with friends on Crescent, reported on Sunday that two boys took her dog on July 28 and she has not seen either the boys or the dog since then. It is described as a female Eskimo Spitz named Betty, with long white hair with tan spots and wearing a Baltimore city dog tag.

An increasing number of house check requests have been received by police who report that they are pleased to be of service to citizens who will be gone from their homes for a short time.

**Boys Club Football**

The Greenbelt Boys Club is issuing a call for all boys interested in playing football. Registration will take place Saturday, August 24 at 3 p.m. at Braden Field.

The Club would like to field four teams: 85 lbs., 12 and under, 105 lbs., 14 and under, 125 lbs., 16 and under, 145 lbs., 18 and under. There is a dire need for men to coach. Anyone interested, contact Bud Dean at the field on Saturday or call his home 474-8086 or Gene Sparks, 474-6312.

**Marchers Needed for Parade**

Labor Day Festival Parade Marshal Austin Green urges more Greenbelt units to march in the parade. As of now there are only four entries from our community.

**Popularity Candidate**

Pretty brown-eyed Sharon Ogden, 10-H Southway, will represent the Greenbelt Volunteer Fire Department and Rescue Squad in the Labor Day Festival "Miss Greenbelt" competition. Sharon is an 18 year old senior at High Point

Senior High School. She is 5 feet, 6 inches tall. Sharon's father is a member of the Fire Department and Rescue Squad, and her mother is a member of the Ladies Auxiliary. Sharon is an active member of the Greenbelt Volunteer Fire Department and Rescue Squad Majorettes.

**PEPCO covers your Electrical power needs with a special kind of "group insurance" policy**

It's always been our policy to be as efficient and as economical as possible in providing you with "Matchless Service" and here is one of the more interesting examples of how we do it: We first took out this "group policy" March 3, 1933, when we began to operate our generating and transmission facilities on a group basis with other Eastern companies. This program worked so well in the interest of our customers, and the customers of the other companies, that it grew rapidly to embrace

many more companies and many more millions of consumers. At its present stage of development, this power tool, as we call it, is one of America's largest, comprising 146 companies with an aggregate generating capability of nearly 150,000,000 kilowatts. It enables PEPCO to provide reserve capacity requirements on a highly efficient group basis, rather than a single system basis. The resulting economy is continually reflected in PEPCO Electric rates, which have long been among the lowest on the Eastern Seaboard.

# How to save a small fortune with money you'd fritter away

## You do it automatically on the Payroll Savings Plan for U.S. Savings Bonds

The average American would save about \$20,000 during his working years if he tucked away just a dime from every dollar he earned. If he bought and held U.S. Savings Bonds, he'd have close to \$40,000.

The big problem is how to save the dime. But it's no problem at all when you sign up for Savings

Bonds on the Payroll Savings Plan where you work.

### World's handiest savings plan

When you save on Payroll Savings, you just sign your name once. From then on your payroll clerk sets aside whatever amount you wish each payday, buys your Bonds, and delivers them to you. Millions of Americans are buy-

ing \$2 billion in Savings Bonds yearly this automatic way for new homes, furniture, education, etc. What's more, they hold their Bonds an average of 7 years—and find the waiting well worthwhile.

**Almost double your money back**  
U.S. Savings Bonds are guaranteed to grow. \$1 becomes \$1.33

in 7½ years—and \$1.93 in 10 more years. You can get your money with interest anytime you need it. And the Treasury Department replaces your Bonds free if they're lost or destroyed.

Every Savings Bond you buy is a share in a stronger America. Get your shares the easy way... by joining the Payroll Savings Plan now.

**U.S. Savings Bonds are theft-proof!**  
Fire-proof and loss-proof, too. Since 1941 the Treasury Department has replaced almost 1½ million Bonds at no cost to the owners.

You save more than money with

# Let's Go Fishin'

BY BOB BREWSTER

Outdoor Editor, Mercury Outboards

Luckily, for those of us who think it's fun to waste a good part of our lives seeking fish, big water does not necessarily mean big fish.

The item that has proved this to many wielders of the limber rod is a relatively modern invention known as the farm pond. Farm ponds (called tanks in the West) have sprouted everywhere a low spot could be found in many parts of the country, providing fishing fun and other water recreation for millions.

Some are as large as four or five acres, others are smaller, but most all of them have been stocked with largemouth bass and bluegills when the water source is good enough to support them.

On the "big" ponds an aluminum boat of 10 or 12 feet is ideal. Then hook a light weight outboard like the little Merc 60 on the transom and settle back for an afternoon of finny fun.

### ASK PERMISSION

Ninety-nine out of 100 farm ponds are on private land, so permission must be garnered before fishing them, but most landowners are willing to return courtesy for courtesy and when asked will give permission. If time permits many will join in the fish quest, so it doesn't hurt to have along an extra rod, just in case.

I learned an unforgettable lesson about farm ponds a couple of years ago while visiting a newspaperman from Macon, Mo., one F. M. Sagaser. He had a pond that couldn't

have been more than 50 yards in length and no more than 30 feet wide. It was tiny, even by small pond standards — not much more than a swimming pool for a midget.

"Rig up your flyrod," he said, "and drop a popper bug right over that fence that runs through the center of the pond."

### PROOF ENOUGH

I rigged, I dropped, and a bass half as long as my arm came chugging up out of the lily pads to gulp that popper into his maw. Five minutes later I had a four-pound bass stretched in the grass. It was proof enough for me.

The trick is to have a storehouse of available farm ponds, with permission to fish already secured, so if one is not productive you can move right on to another. With a light boat that can be handled easily by one man, and a little Merc 60 that tips the scales at less than 50 pounds, a farm pond fisherman is all set to go.

It's worth a try.

**Our Neighbors**

by Elaine Skolnik - 474-6060

It's a girl for Mr. and Mrs. Jack Wood, 54-L Ridge. Cynthia Lymette made her debut August 7 weighing 4 lbs. 11 oz. She has a sister, Cassandra Louise.

Best wishes for a speedy recovery to Mrs. Joseph Comproni, 13-A Ridge.

A get-well-quick to Mark Lewis, 4-Fayette, who was injured last week.

"Quilts - Quilters - Quilting" that's the name of the unpublished book that former Greenbelter, Mrs. Dolores A. Hinson, has written. For seven years, much of her research was done here at our library. Recently, Mrs. Neal Paris, Greenbelt branch librarian, became interested in the manuscript on quilting and asked Mrs. Hinson to bring it in. Along with the manuscript came several handmade quilts. According to Mrs. Paris, Mrs. Hinson has read all the library's stock of domestic science, U. S. history, and U. S. biography. We wish Mrs. Hinson lots of luck in her efforts to interest a publisher in the manuscript. The book sounds fascinating. It tells the story of quilt making in the United States and gives a vivid portrait of some dramatic historical events.

Elliot Bukzin, 6-N Ridge, has been appointed to the Alumni Advisory Council on Admissions of New York University. Members of the nation-wide Advisory Council assist and advise NYU's Office of Admissions and help to further the institution's admission policies.

Back home after seven weeks out West are Evelyn Simonson and the children, 8-C Ridge. Their travels took them to Cliff's dad's farm in Agate, North Dakota and to relatives in Illinois.

Congratulations to the "Prince Georgemen of Greenbelt" - Timmy Murray, Randy Mason and Alan Henry who were among the talented teenagers competing in the semi-finals amateur contest held last Sunday at the Beltsville Drive-In. The boys were among the eight acts chosen to enter the grand finals contest that will be a feature of the closing day's program at the Prince Georges County Fair and Showcase in Upper Marlboro on Sunday, September 8.

Dennis M. Dunn, fireman, USN, 18-U Ridge, is serving aboard the dock landing ship USS Fort Snelling which recently participated in the search for the nuclear submarine USS Thresher.

Joseph M. Miller, airman, USN,

73-K Ridge, is aboard the anti-submarine warfare support aircraft carrier USS Wasp.

Charles F. Schwan, III, airman USN, 7-A Crescent, has reported for duty with Attack Squadron 106 at the Naval Air Station, Cecil Field, Florida.

Edward M. Henry, fireman apprentice, USN, 9-M Ridge, is attending Electrician's Mate School at the Naval Training Center, Great Lakes.

Douglas Henegar, 17, 6-C Hillside, is undergoing nine weeks basic training at the Naval Training Center, Great Lakes.

**Toastmasters Joint Meeting**

The Greenbelt Toastmasters Club, will hold a joint meeting with the Columbian Toastmasters Club of College Park on Tuesday evening, August 27 at 8 p.m. in the Co-op Hospitality room.

An invitation is issued to all men who are interested in improving their public speaking ability to see and hear a Toastmasters meeting in action. There is no charge and light refreshments will be served. Call Andy Feeney at GR 4-6051 for further information.

**DOROTHY LAMOUR AT SHADY GROVE**

Movie Star Dorothy Lamour makes her summer stock debut in Rodgers and Hart's gay Musical, "Pal Joey" at Shady Grove Music Fair, Aug. 27 thru Sept 1. Bob Hope's sidekick plays the role of a rich society woman who falls for a small-time heel named Joey. Theatre is located at Shady Grove Exit of U.S. 240 between Rockville and Gaithersburg, Maryland.

**Hay Fever Season Nearing Its Height**

The American Medical Association warns that the hay fever season is just around the corner. From the middle of August through mid-September, those sensitive to ragweed pollen suffer their most agonizing time. That's when the ragweed pollen count is highest.

Hay fever is not caused by hay and it isn't a fever.

Hay fever is an allergy. The body becomes sensitive to a foreign substance. This can be almost anything for various individuals, but is most likely to be ragweed pollen. The results also vary, but most commonly are sneezing, watery eyes, runny noses and general discomfort.

Tolerance to pollens sometimes can be built up by injecting a dilute solution of them under the skin. These shots must be medically prescribed to meet individual needs. Antihistamines may give temporary relief.

The most common preventive measures against hay fever are:

- \* Get specific anti-hay - fever shots well ahead of the season.
- Avoid exposure to ragweed pollen by keeping away from areas where it is prevalent.
- \* Air condition the home and work in air-conditioned surroundings, if possible.
- \* Antihistaminic drugs to lessen the nasal and sinus congestion.
- \* Keep the home as dust-free as possible during the height of the hay fever season and throughout the rest of the year.

**JCC Sunday School**

Registration for the Hebrew Sunday School of the Jewish Community Center of Prince Georges County, Ridge and Westway Rds., will take place on Sunday, August 25 between 11 a.m. and 12 noon. Rabbi Albert Platt, principal of the Hebrew School, will be present to meet parents.

Mr. Martin M. Bell will serve as principal of the Sunday School. The school program includes classes beginning at kindergarten age and continuing into the teens.

**Plan Now For Healthy Lawn**

Obtaining a good lawn is not a matter of luck but one of good planning and preparation. So, if an attempt is going to be made to do something about the lawn this fall, planning and preparations should be carried out now.

**Complete Removal**

If perennial grasses such as Bermudagrass are present, it will be necessary to remove all grass from the lawn areas as well as the Bermudagrass. Dalapon is recommended for the complete removal of grasses and weeds from the lawn area.

This chemical should be applied according to the directions on the package. The material should be applied as soon as possible as it will take from three to four weeks before the soil can be worked and a new lawn started.

The target date for seeding a new lawn is around September 1st.

**Crabgrass Removal**

Crabgrass removal can be carried out with the application of (Sodar). The material should be ap-

plied to the plant before it has a chance to go to seed. Once the Crabgrass has been removed, the new seed may be sown.

**Broadleaf Weeds**

The broadleaved weeds can be removed by the application of 2,4-D or Silvex. The Amine salt form of these materials should be used. One note of caution: Never apply 2,4-D or Silvex when there is a breeze or when the temperature is above 80 degrees.

These materials when used properly are efficient tools in the lawn program.

For more information on weed control in the lawn, write or call the County Extension Office, Court House, Upper Marlboro, Md., and ask for Fact Sheet #157.

**Hootennanny**

Persons interested in competing for prize money in an old-fashion "hootennanny" on Saturday, August 31 at 10 p.m., please call Elizabeth Wuermser, 474-6012 or Jay Hull, 946-7881.

**Swimming Pool Referendum  
A Report to the People**

By James K. Giese, City Manager

This is the first of a series of four reports providing information concerning the referendum on issuing bonds for the reconstruction and enlargement of swimming pool facilities. At the September 17th election, the voters of Greenbelt will have the choice of either approving or disapproving the issuance by the City of bonds not to exceed \$150,000.00 for improving the pool. It is proposed that any bonds issued be paid back from swimming pool revenues.

This article will discuss the need for reconstructing existing pool facilities. Future articles will discuss the preliminary plans, the means of financing, and the referendum.

**Pool is Deteriorating**

When the Greenbelt pool was completed in 1939, it was one of the finest facilities in the metropolitan area. While still providing pleasure to Greenbelt residents, the pool's age is showing, and deterioration is taking place rapidly. This deterioration is such that the city is faced with the choice of either undertaking major repairs and reconstruction or closing down the pool in the not too distant future.

The bath house needs a new roof. The wooden dressing room wings have rotted beams as well as broken and rotted partitions and walls. The dressing room floors do not have drains and are badly cracked. Various windows and doors throughout the building need repair or replacement. The plaster ceilings in the shower room have been damaged seriously by water leaks through the roof and moisture from the showers. Pieces of plaster have fallen from the ceiling. The electric wiring throughout is inadequate and improperly grounded creating shock hazards. In the men's dressing room, a short circuit causes intermittent operation of the lights. New shower fixtures (which will operate only when being used, thus saving water) are needed badly as well as a hot water system which we do not now have.

The pool deck has settled since it was built, creating an irregular surface that is a stumbling hazard and prevents water from draining properly. The crumbling concrete has caused rough surfaces and loose chips which are extremely uncomfortable to walk on. The entire deck is a crazy quilt of patches, which attest to the need for considerable annual maintenance and detract from the appearance of the pool.

**Pool Walls Disintegrating**

The walls of the pool are disintegrating. Each spring, bad concrete must be removed and replaced over large areas of the wall. The patchwork done each year does not last and must be redone every year or two. The pool was constructed with insufficient expansion joints, and bad cracks have developed which must be filled each year in order to prevent leakage.

Piping to the pool is in questionable shape.

Some of the piping to the wading pool and to the main pool is not functioning and circulation of fresh chlorinated water is not satisfactory. How much piping will need to be replaced is unknown until it can be dug up. Some of the valves do not function properly or at all. The chlorinator must be replaced. The pumps will probably need to be rebuilt.

The depth at the diving end of the pool is eight feet. Prince George's County has established a twelve foot minimum depth for a high dive and eight feet for the low boards. Thus Greenbelt does not have the minimum margin of safety required of new pools for its high dive. The diving board supports should be replaced.

Lighting facilities for night swimming are inadequate. The guards find it difficult to see anyone who is underwater as a result of the poor lighting.

There are a great many other deficiencies with the pool structure which have not been mentioned. For example, the life guard chairs and stands need to be replaced. The platform on one stand gave way under a guard recently, causing him to fall off the platform—fortunately into the water without injury.

**Engineer Employed**

Last winter, council requested the city manager to investigate having the pool permanently repaired before the summer season. After investigations, I concluded that there was not sufficient time to make the needed repairs before Memorial Day and that the project required study and preparation of plans and specifications by competent, qualified personnel.

Last spring the engineering firm of Greenhorne and O'Marra, a well known, reputable firm in the local area, was selected to do the design work.

The engineers were instructed to make a preliminary study sufficient to determine what must be done so that Greenbelt might once more have a first class pool comparable to a new one. In so doing, the engineers were informed of the city's wish to pay for the cost of this pool out of pool revenues. Further, the engineers were told that the City wanted the reconstructed pool to last as long or longer than the present structure and to require the minimum amount of maintenance possible. The city did not wish to continue spending two to three thousand dollars a year on painting and repairs. Lastly, the engineers were instructed to see what could be done to enlarge the present facility in order to provide for the larger population expected in Greenbelt.

On July 29, Greenhorne and O'Marra submitted preliminary plans and cost estimates for reconstructing and enlarging the pool. These preliminary plans will be the subject of next week's report.

Space Purchased by the City of Greenbelt

**THAT'S A FACT**

**HIGH AND LOW**  
THE RANGE OF TEMPERATURES IN THE SAHARA VARIES FROM 150°F DURING THE DAY TO BELOW FREEZING AT NIGHT!

**U.S. Savings Bonds...**  
... PAY UNIQUE RETURN. MOST AMERICANS AGREE THAT THE MOST IMPORTANT PART TODAY IS NOT MEASURABLE IN DOLLARS AND CENTS.

**SMALL HAUL**  
A LITTER OF 18 NEW-BORN OPOSSUMS CAN FIT INTO AN ORDINARY TEASPOON!

**MORE THAN INTEREST...**  
U.S. SAVINGS BONDS PAY YOU MORE THAN INTEREST BECAUSE THEY DO MORE THAN EARN MONEY - THEY STRENGTHEN OUR ECONOMY AT HOME!
