GHI Board Acts Swiftly To Oppose Zoning Changes

by Claude Wimberly

The directors of Greenbelt Homes Inc., moved swiftly last Thursday night to call on its membership to make a desperate last-ditch effort to block zoning petitions that could turn major Greenbelt streets into four-lane arterial highways.

The board voted to alert the membership to dangers inherent in two zoning petitions to be heard in Upper Marlboro Wednesday, May 20. A report of the zoning committee, headed by Leo Gerton was adopted by the board, together with recommendations to alert the membership to join with city officials and others in opposing the petitions calling for high density housing in the area.

The report warned that zoning requests by Messrs. Smith and Ewing to have their tracts zoned for either high rise or high density developments, in effect, constitute approval of the Maryland National Park and Planning Commission's Area 13 master plan.

Examination of the plan reveals that access roads leading to the areas up for zoning call for converting some Greenbelt streets into four lane highways ranging from 80 to 100 feet wide.

For example: Ridge road, from the Capital Beltway to Southway will become a four lane ribbon of concrete 80 to 100 feet wide; Northway and Southway will be widened to accommodate four traffic lanes.

Later, in a letter circulated to GHI members, Board President Charles Schwan warned that some Greenbelt home owners "will be drastically affected," if the zoning petitions are approved. Schwan emphasized that if the plan is implemented, some home owners stand to lose, at the least, parking areas and lawn. Some dwellings, if they stand in the path of the proposed new highway system could be condemned, the board president stated.

Taxes

More bad news plagued the Thursday night session as GHI manager Breashears indicated county assessors have placed an unusually high evaluation on GHI properties.

In presenting the report, Breashears did so with reservations. He said he felt he could negotiate a "better settlement" with the tax office. Describing the proposed assessment as "excessively high," the manager reported he has since been able to bring about a substantial reduction of the amount through negotiation.

The board decided to take no action for the time being and ordered

the manager to make every effort to obtain further cuts. At the same time, it authorized the manager to hire the services of a qualified tax attorney if he felt one necessary to deal with the existing problem, or to file an appeal in case such an action becomes necessary.

Censure Motion

Another highlight of last Thursday's meeting came when director John O'Reilly lashed out at a fellow board member for what he termed a "breach of trust." Object of O'Reilly's indictment was William Helm.

Helm, his colleague charged, was guilty of hinting at behind-closed-doors discussion of a conflict of interest problem involving one of the board members. Helm, who was not present during the discussion, had written a letter to the News Review, May 7, in which he alluded to the secret conflict of interest debate.

O'Reilly read excerpts from the letter into the record, then demanded the board censure Helm for his conduct. "I believe such a statement made in public is a breach of trust," O'Reilly asserted flatly.

Other board members present were cool toward the resolution, however. Most of them attributed their reluctance to act on the censure motion to Helm's absence. The motion was tabled.

In other action, the board:

—Endorsed the manager's report on the current status of the crash program to restore hot water lines in 88 frame units. Breashears asserted that "the program is being pursued as vigorously as we can with the present appropriation."

—Enthusiastically received word from County Chairman Frank Lastner that he is bending every effort to have the first issue of stamps commemorating the late great rocket scientist Dr. Robert H. Goddard placed on sale in Greenbelt.

—Noted the complaint of a homeowner who demanded something be done about hedges overhanging walkways leading to his house. The board assured the complainant they would take care of getting the hedges trimmed, and ordered a study made to enable them to arrive at a set policy on hedge-trimming standards throughout the development.

Make-up Clinics for Polio

Last Sunday, 5528 persons received the second dose of Sabin oral polio vaccine at Center School. This compares with 5954 who took the first dose at the same school a month ago.

Two make-up immunization centers will be open Friday evening, May 22, from 6 p.m. to 9 p.m. to afford county residents who missed the opportunity to get Type III vaccine last Sunday to do so. The make-up clinics will be located at the Capital Plaza Shopping Center in Landover and the Marlow Heights Shopping Center at the intersection of Branch Avenue and St. Barnabas Rd., Silver Hill.

Brewster Pulls Strongly Among Greenbelt Demos

Almost 1,500 Democratic voters in Greenbelt went to the polls Tuesday to give Senator Daniel B. Brewster 70 per cent of the vote in his fight against Governor George Wallace. The 30 per cent vote received by Wallace was considerably lower than his Statewide ratio (see re-

In the Democratic primary race for U. S. Senator, Joseph D. Tydings emerged victorious over Comptroller Louis L. Goldstein with 62 per cent of the Greenbelt vote. In the tight 3-way race for Congressman from the Fifth District, Greenbelt Democratic voters gave Edward T. Conroy the edge by one hundred votes over Hervey Machen and Elbert M. Byrd, Jr., who finished practically in a draw.

Carlton R. Sickles, running as the incumbent Congressman-at-large, had only token opposition and rang up 727 votes against his opponent's 57. In the contest for delegates to the State Convention, the Tydings group won out. Sam Cornelius of 14-M Ridge was a winning delegate.

On the Republican side incumbent Senator J. Glenn Beall received 186 votes and his opponent James P. Gleason 197 votes. In the race for Fifth Congressional Dis-

ZONING POSTPONED

Action was delayed Wednesday until Aug. 21 on the Smith-Ewing rezoning applications to include high rise apartments just east of the Baltimore-Washington Parkway. The County Commissioners agreed that such zoning decisions should now be deferred until after adoption of the Greenbelt-College Park Master Plan.

City Council Clears Docket To Take Up 1964-65 Budget

by Rita Fisher

City Council, in an effort to conclude its Monday night meeting by 10 p.m., discussed the most urgent items and tabled others until their next meeting which will be held on June 18, thus clearing the way for concentrated work on the 1964-65 budget.

An amendment to the Resolution establishing swimming pool fees to allow for the purchase of group tickets for guests of season pass holders was adopted. Several citizens had asked council to consider

the high price faced by guests of Greenbelters. Prices will be announced later by the city.

Charles A. Kiddy presented 2 petitions on behalf of the Woodland Hills Cooperative. One requested that Greenhill be extended to Hillside Road. Kiddy stated that the access is needed urgently in the interest of fire and rescue work. It was also requested that police crack down on speeders using Northway. The second petition urged construction of walkways from Woodland Hills to Lakewood and to Crescent Road.

City Council Holds First Budget Session

by Charles T. McDonald

In its first session to discuss the 1964-65 budget, city council met Friday, May 15th with the Police Department budget on the agenda.

The total proposed Police Department budget for next year is \$85,000, as compared to the estimated expenditure of \$58,450 for 63-64. The increase is largely in the salary item, as it provides for four additional uniformed men, making a total of eleven men. The starting salary of new police officers will be \$4,534. These new salaries plus increments for the present staff will increase the total budget to \$20,500 over the 63-64 estimated expenditures.

Other operating expenses are estimated to cost \$10,900 as compared to \$6,150 for 63-64. The largest single item increase is for the uniforms for the new men and other equipment. The telephone expense for the Police Department is estimated to be \$1,140 more than last year's allotment. According to City Manager Giese this amount is a more equitable one than had previously been charged to the Police Dept. budgets.

The capital outlay items are increased in total by \$1,300 in the 64-65 request, to provide for replacing both police cars. A third emergency car is requested under another section of the budget, but it will be equipped with radio and siren out of the Police budget funds.

The next budget session will be on public works, Saturday morning at 9:30 a.m. On Monday, May 25 a public hearing will be held at 8 p.m.

In answer, City Manager James K. Giese stated that street construction on Greenhill Road was in the proposed Capital Improvements in the 1966-67 Budget. Pathways, he said, were being constructed in that area. A fourth bridge will be built over the drainage canal between Northway and Lakewood, strong enough to hold a Public Works truck. There are no immediate plans for the construction of any walkways in that area.

Council instructed Manager Giese to grant permission to build a temporary road near the end of Ridge Road (the site of the proposed Lakeside North apartment.) if the builder would provide a Performance Bond to insure that the developer would provide funds to construct a proper roadway if the city so desires in the future.

A letter was read from Robert Scholten, owner of Bob and Fran's Carry Out in the Center, which requested permission to install appropriate fixtures for a sidewalk cafe in front of the store. The letter promised to provide adequate lighting at night with the store owner taking full responsibility for the safety and sanitary condition of the area. Council placed the matter on the agenda for the next meeting.

There was also a letter read from a new group, Cooperative Elderly Housing. They requested rezoning of a plot of land situated on Crescent between St. Hugh's school and the PEPCO sub-station. The letter stated that, if the area could be rezoned to R-18, the group would like to purchase the land in order to construct a senior citizens cooperative housing development containing a four-story elevator building. Council decided not to consider sale of the land until the proper zoning could be obtained.

At this point the only citizen attending the meeting asked "why should these same people who apparently seem to be so much opposed to high rise apartments, be proposing a four story building, even closer to the residential part of the city?"

A letter of complaint was read from a man who commutes from Mitchellville to Silver Spring, by way of Glendale Road and Route 193, who stated that during the last 3 weeks the situation at the intersection of Southway and Greenbelt Road has become "intolerable". He blamed this on the placement of a police officer in that location.

Charles Kiddy, President of Woodway Community Development, Inc., a cooperative in Woodland Hills, read a letter mentioning the Preliminary Master Plan for College Park, Greenbelt and vicinity, presented to the public recently by the MNCP&PC. The letter expressed the group's dissatisfaction with the proposal to make Northway an arterial 4-lane highway, commercial zoning at the end of Crescent Road near the lake and the excessive number of high density dwelling units proposed for Greenbelt, particularly high-rise apartments. The group urged the council, as representatives of the citizenry, to oppose the specific parts of the plan which were mentioned in the letter.

PUBLIC NOTICE

There will be a public hearing on the annual budget of the City of Greenbelt in the Council Room of the Municipal Building, Monday, May 25, at eight o'clock. The public is invited to attend.

trict, David Scull outpaced Louise Gore.

Goddard Open House

Goddard Space Flight Center has announced that a special open house will be held this Saturday, May 23, from 10 a.m. to 4 p.m. First to be invited is the large backlog of groups requesting tours through the center. This backlog has become so great as to require an open house, some 2000 are expected to attend.

Model Rocketry Exhibition

A model rocketry demonstration will be held 9 a.m., May 23, at the NASA Optical Research Facility, Greenbelt, just northeast of the Goddard Space Flight Center.

Model rocketry is a new scientific hobby that is sweeping the country. Model rocketry differs greatly from "amateur rocketry" in that it offers no hazards to the participants, general public or property. The tiny rockets are constructed of paper and balsa wood. The propellant is commercially manufactured under extremely rigid quality controls and is mailable through the U. S. mails. The Federal Aviation Agency has placed minimum restriction on the operation of model rockets.

"A WONDERFUL TIME"

To the Editor:

On May 11, Mrs. Rowley's fifth grade class of Center School went to the outdoor education school at Camp Letts. We were fortunate to be one of four schools in the county to go. At Camp Letts we learned about water safety, insects, marine life, camp crafts, nature crafts, weather and astronomy. For special interest we did canoeing, fishing, bird watching, seining and insect study. In the night we usually had an activity period and saw films, did square dancing, and played games at the nature craft building. Some of the boys from Greenbelt tied with three other cabins for having the neatest cabin.

Our weather forecasting proved more accurate than the weather bureau, for when the weather bureau forecasted rain we forecasted a fair day and the next day it was fair.

Some of the adults that came were Mr. Cardano, principal of Center School, and Mrs. Rowley; Mr. Young, who is the county art teacher, was there too. We had a wonderful time.

'TO BROADEN OUR MINDS'

To the Editor:

I am only 15 years old. I am sure that I am not nearly as worldly and wise as Mr. William P. Helm. BUT . . . In all deference to his superiority, I am puzzled by his attitude as stated in his letter of May 14. He spoke thusly, "but, because we live in row houses, very close together, GHI should be one of the last areas to integrate. If we are the last to integrate a person running away from integration has no place to run to — everywhere else is integrated."

This shows remarkable initiative, and I'm sure that if everyone had this "here you do it first, then I will have an easy job of it" philosophy that we would progress rapidly into nothingness.

I think it would be a fine idea to have Negroes in this community. Many of my friends at school are Negroes, and I would like them for my neighbors.

This would also be a wonderful opportunity for some of us to broaden our minds. I think some of us need that. Don't you, Mr. Helm?

Band Concert
This Sunday, and every 4th Sunday of the month, the Greenbelt Concert Band will offer an enjoyable afternoon of music for your entertainment. The concerts will be held on the grassy hill directly to the rear of the statue in the Shopping Center. Plan to attend this and every concert at 3:30 p.m. Sunday.

Chess Tournament

Thirty-two games have been played. David Bronstein swept the field with 6 wins and no losses. Michael Gaffney, who had held up well with six wins and no losses, succumbed to Robert Wilson and David Bronstein at the last meeting. A note should be made that any contestant who misses two meetings without being excused, will forfeit all games not played. It is expected that the tournament will be completed this Saturday or the 30th.

Maps will be furnished. Refreshments will be served in the gardens of Mr. and Mrs. Beverly Fonda and Mrs. Charles Cormack at the end of the tour. A door prize will be presented there also.

In case of rain next Sunday, the tour will be postponed to June 7.

Proceeds will be added to a fund to provide a scholarship for a graduating High Point high school girl.

**Attention
Nationwide Life
Policyholders**

NATIONWIDE has introduced a revolutionary new life insurance plan. It offers an exclusive benefit for present policyholders.

Now, for the first time, most Nationwide Life insurance policies bought since 1948 can be revised and updated to meet your current needs.

You can add as many as 9 different "Benefit Riders" to your present policy. This eliminates the necessity of buying new policies as your needs change. It makes it a lot easier to get exactly the insurance you want — and for less money than ever before. Call today for complete details.

Yellow Pages

**When the blinds go up
in the Capitol Building...**

. . . Washington Shade and Awning Company trucks will be parked in the driveway!

The 35-year-old company was recently awarded a contract to manufacture and install venetian blinds in the East Front Wing.

Now, when the government noticed the Capitol's window shades wearing out, did it shop the Yellow Pages to find someone to replace them? Probably not.

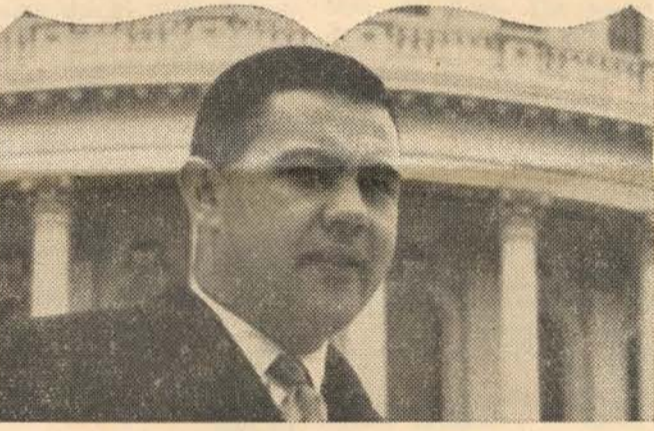

But—just about 40% of the Washington Shade and Awning Company's annual retail leads are the result of Yellow Pages advertising. It feels the Yellow Pages has played a vital part in the company's sales program.

.

Big or little, your business can be busier as the result of a Yellow Pages advertisement.

People looking for someone to serve their needs look in the Yellow Pages. Make sure they find you there.

Call your C & P Business Office and ask for a Yellow Pages representative.

John D. Buckingham, president of the Washington Shade and Awning Company, says, "We get our greatest assist in retail drapery sales from our Yellow Pages advertising."
