EXPOSED AS FRAUD !

CO-OP MEDICINE STEP NEARER

Board of Directors Elected

Greenbelt has moved a step nearer towards the adoption of cooperative medicine.

On Thursday, January 20, at a meeting held in accordance with a motion made the previous week, a Board of Directors consisting of seven members was elected. This Board will begin immediately to work out the details of a cooperative medical plan suitable to the needs of this community.

The successful candidates are: Harry Eugene Hesse, John Beckham, Leo R. Mullen, Arthur Dickerman, Mrs. Herkus Letkeman, Fred L. Wilde, and Ed. Thornhill.

There were seventeen candidates in all, and just before the balloting each was given an opportunity to declare himself on the issue--a cooperative medical service for Greenbelt. The similarity of the candidates' views, all favorable to a plan for co-op medicine, was indeed noteworthy.

Voting was by the Ware preferential system.

Pending the adoption of a plan for cooperative medicine the Board will consider at once the task of bringing to Greenbelt a physician, who may treat patients on a fee-for-service basis.

Mr. Hesse, chairman of the temporary committee, which had worked on a cooperative medical plan, reported that on recommendation of the Medical Advisers, choice of a doctor had been postponed until after the election of the Board of Directors. Mr. Hesse further stated

Federal Authorities Investigating Methods of Salesmen

Questioned by the editor of the Co-operator, Mr. Palmer, the sales-manager for the National Encyclopedias, admitted that the methods employed in selling this set of books were being INVESTIGATED BY THE FEDERAL TRADE COMMISSION. Mr. Palmer also admitted that the salesmen had not received any permission to solicit sales in Greenbelt.

More light on this subject is shed by an important magazine article exposing salesmen's methods as a fraud.

Excerpts from this article appear in the following letter:

Editor, Greenbelt Cooperator:

The National Encyclopedia sales campaign now being worked at Greenbelt has already been exposed on the Pacific Coast. Thanks to the kindness of Mr. Oscar Anderson I am able to refer you to the autumn, 1937, issue of the Coast magazine called "Answers, Frauds Exposed" in which appears an article from which the following selection is taken:

"Book agents of the National Encyclopedia, published by Collier's, are resorting to old tricks unworthy of representatives of the Crowell Publishing Co., owners of Collier's, the American Magazine, and the Woman's Home Companion." Then the article outlines the technique being practiced on the Coast, which is the same as that being used here, as I detailed in my letter you published last week. The article continues: "Later the Answers man went to the public li-

EXPOSED AS FRAUD

(Continued from Page One)

brary to learn what the American Library Association bulletin had to say on the National Encyclopedia ... The desired information appeared in the January, 1933, number. It appears the National was published in 1932 (the salesman said about a year ago) and sells regularly for \$68 in the East. So the \$140 was just sales hokey. Said the bulletin among other things:

"The list of department editors and contributors includes distinguished names, but the National cannot be compared, of course, in size and fullness of treatment with the Britannica, the Americana, and the New International.

When one considers the greater volume of information in the larger encyclopedias, one realizes that \$68 is a high price for these volumes."

And remember that was in 1933. Dumping those books on the market today for \$68 comes to what, pray tell? The editor has been dead several years, and no substantial revising has been done. As for the salesman's methods, they are deplorable; entirely misleading. The books never have brought the higher prices they mention, and they are offering no bargains. People who buy the National are surely paying a high price for a second-grade product.

An added word though, if I may, about house to house selling in general. Here are some facts to note: First, positively proved is the fact that this is the most costly method of selling generally practiced. Profits must be figured on a mark-up of several hundred per cent over cost. Second, the salesman have no incentive for considering your best interests; they probably won't see you again. Third, note how these salesman use all their powers to keep you under their influence until they have your signature on an ironclad agreement. They discourage you, even with rudeness, from thinking it over, or 'sleeping on it,' or talking it over alone with husband or wife. In other words, they build up a bubble of attractiveness which they know the pin of

DING DONG -- PING PONG

Ping Pong enthusiasts will be pleased to learn that the former temporary food store has been revamped into a recreation center where table tennis is the sole attraction, for the time being.

Two tables are ready to serve the ping pongers.

The rates are 15¢ an hour for each player, or 45¢ an hour if four players use the same table at the same time.

Hours are:

5:30 - 11:00 P.M. Weekdays

4:00 - 11:00 P.M. Saturdays

2:00 - 11:00 P.M. Sundays

The Recreation Committee is sponsoring this center. There will be an attendant in charge at all times, and the funds will go towards purchasing new equipment such as: additional balls and tables, a pool table, tennis equipment, etc.

A tournament is tentatively planned for Friday, February 4. The entry fee is 10 cents.

LET'S HAVE A SUNDAY CHILDREN'S HOUR

Will the organization of a Children's Hour on Sunday afternoon be possible?

Think about this - offer suggestions-- lets let the younger folks in Greenbelt have something to look forward to on Sunday afternoon.

Mrs. Mitchell will be glad to take this matter up with Dr. Dodson if it seems advisable.

clear thinking would soon destroy.

My wife and I know a couple, both of whom are successful doctors with good incomes, who are agreed never to make a purchase of over five dollars without consultation with each other, nor until after 'sleeping on it.' We have made their rule ours.

Howard C. Custer

P.S. I have been informed that contracts signed for the National Encyclopedia may be void because of the methods used by the salesman. Citizens who feel they have been misled might well consider taking measures to obtain relief.

H. C. C.

See Mr. Braden's statement on Page 6

PROFITS FROM DANCE HERE TO GO FOR
RECREATIONAL EQUIPMENT

Every dance that we attend at the community center helps to procure better recreational equipment, says George J. Panagoulis, chairman of the dance committee.

The proceeds from each dance are turned over to the Treasurer of the Greenbelt Citizen's Association who keeps a separate account for the dance committee.

Anyone desiring a report of the financial status of the fund may apply to the treasurer of the Citizen's Association.

Groups who are interested in obtaining the use of this equipment must apply to the recreation committee of the Association.

QUESTIONS AND ANSWERS ABOUT GREENBELT

"Answers to questions of facts can be had by addressing your communications to The Coöperator)

By Velma Brewer

--

Q. How high is Greenbelt above sea level?

A. 170 feet.

Q. How does this compare with the District of Columbia?

A. The District of Columbia ranges from sea level to 420 feet above, with an average in Washington proper of 175 feet.

Q. How does this compare with New York?

A. New York City ranges from sea level to 430 feet above at Staten Island. Manhattan proper is approximately 267 feet above.

Q. How many families will there be in Greenbelt when fully populated?

A. Single persons: 44
Couples: 204
Families: 637

ATHLETIC ASSOCIATION TO ORGANIZE

In response to a number of inquiries concerning an athletic program, a meeting will be held Thursday, January 27, in room 202 of the Greenbelt Consumer Offices, for the purpose of organizing an Athletic Association. All persons interested in any sport are urged to attend.

CREDIT UNION ELECTS DIRECTORS HERE

Credit Committee Making Loans; New Members Joining Co-Op Bank; 95 Depositors Enrolled

With a distinguished speaker to head the program, the first annual meeting of the Greenbelt Credit Union took place at the school auditorium Wednesday night, Jan. 19.

Following the nominating committee's report, seven were elected to the Board of Directors. They are Messrs. Ferguson, Allred, Thornhill, Hodsdon, Wilde, Bauer, and Falls.

With unanimous consent the Secretary was ordered to cast a single ballot for the election of the credit committee, composed of Mrs. Theodora Murray, William Donahue, and Sulo Laakso.

Supervisory committee members elected for the year are: Mr. DeJager, Mrs. Velma Brewer, and Oscar Leightner.

The nominating committee included the following: Nathan Schein, Mrs. H. H. Maurer, Mrs. Harry Hesse.

Treasurer Allred reported deposits rapidly mounting beyond \$700 in the past few days, with a total of 95 members already enrolled.

President Harry Falls presided and Secretary George Bauer read the minutes of the previous meeting.

Mrs. Theodora Murray reported that the credit committee is taking action on five loan applications.

Fred Wilde invited all interested neighbors to join, and urged members to point out the value of the organization and its helpful cooperative nature.

Herbert Evans said that an Assistant Treasurer could be bonded who could relieve the Treasurer of a great deal of detail in handling deposits.

The honored guest of the evening was Roy Bergengren, officer of the Credit Union National Association, Madison, Wis. Mr. Bergengren is editor of the monthly magazine, "Bridge", which represents the work of CUNA with a circulation of 96,000.

CATHOLICS DEVELOP CO-OP PROGRAM
ON WIDE FRONT IN NOVA SCOTIA SCHOOLS

Organize 338 Study Clubs with 4300
Members -- Favor Adult Education

Charlottetown, Prince Edward Island-Inspired by the role cooperatives have played in the economic reconstruction of Nova Scotia, educational leaders in Prince Edward Island have launched an intensive organization in this province.

In May, 1936, St. Dunstan's College called a meeting of government, religious, educational, agricultural and fishing organizations to discuss a program of action. The adult Education League was formed to carry out a definite program during the winter of 1936-37. The technique used so successfully in Nova Scotia by St. Francis Xavier University was followed as closely as possible. Public meetings were called to discuss the problems facing each community; these were followed by the organization of small study clubs; then groups of associated study clubs were formed for economic action.

Beginning in November, study clubs were organized at the rate of 25 a week. At the end of March, 1937, there were 338 study clubs in action with 4300 members. Circulating libraries, newspaper articles, and a series of radio programs intensified the work.

Twenty-four credit unions, twelve cooperative buying clubs and two cooperative stores have already been established as a direct result of the program. A credit union law has been enacted. A number of cooperative production units are being formed and another intensive education program launched for the 1937-38 season.

HOME OFFERED

Do you know of a settled person who needs a home and is able to assist an artheritis patient and care for a small apartment in Greenbelt? A home and small salary is offered, with a chance for other employment in the neighborhood.

Perhaps you have part time work for such a person--information--39-J Ridge Road

MEMBERSHIP IN LOCAL NO. 13 OF THE
PARKWAY FRATERNITY IS DWINDLING

Eligible Bachelors Number Only Three
Since "That Man" Went West

In checking up on the eligible bachelors that are left in the "downtown area" since Robert E. Jacobsen was married, we find only three members who comprise the membership in local No. 13 of the Parkway Fraternity.

Messrs. Panagoulis, Hodsdon and Dunaway will "hold the fort" now in the event some sweet damsel comes to town.

"But when is she coming?" asks one member of the trio. "What is a town without a romance?"

MR. BERKALEW RETURNS TO WORK

After nursing a broken arm for over two months, most of which time was spent in Mount Alto Hospital in Washington, George Berkalew, 33-H Ridge Road, returned to his job with the Guard Service in the Department of Interior, Monday, January 17.

Mr. Berkalew sustained injuries when he fell on the steps at the Civil Service Commission building early in November. He experienced considerable pain for several days following the injury due to the nature of the fracture.

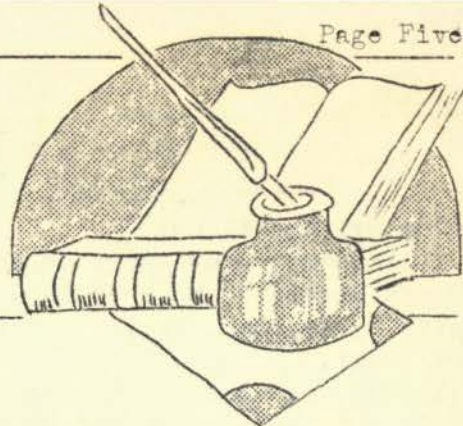

Two operations were performed upon his arm which necessitated his confinement to the hospital for such a long time.

Mr. Berkalew is well known to the people here because of his untiring activities in providing transportation between Greenbelt and Washington for many of his neighbors before a bus service was installed.

JOURNALISTIC CLUB MEETS TOMORROW

Members of the Greenbelt Journalistic Club will meet Thursday night, Jan. 27, to review the current developments in producing the town weekly. The club is interested in securing volunteer workers in writing, editing, typing, mimeographing, and assisting in all departments of the "Cooperator." It has been suggested that the club analyze stories, from the standpoint of their news value, construction, and from time to time, invite leading journalists to participate in the meeting.

REPORTERS NEED YOUR HELP

Citizens of Greenbelt will find an opportunity to assist the editorial and news staff of the Cooperator by making use of the Community News Box located in the business district.

If you have a statement to make, any announcement of clubs or meetings, any news tips for the editor, any suggestions, or letters-to-the-editor, it will be helpful if these are deposited promptly each week.

The Cooperator staff should be in receipt of all news and editorial items by Saturday, if the Cooperator is to appear each Wednesday.

This is intended to be your newspaper, cooperatively owned and oper-

More and more audible becomes the complaint that the "early settlers" of Greenbelt have taken over all authority where it is possible to do so; that they have had themselves elected to the "high places"; and that they are running the town to suit themselves.

The answers to these accusations are so apparent that the accusers couldn't help seeing them if they weren't so blinded by unreasoning anger.

The first people to come to Greenbelt were eloted to the posts they are now holding for the very simple reason that there were none but the first people there at the time. And if the people who are doing so much complaining would stop to ascertain a few facts instead of making meaningless sounds they would learn that every post now occupied by a Greenbelt resident has a tenure of office that is almost ridiculously short. And the reason for that is that all the newcomers should also have a chance to enjoy the "high places".

It is untrue to say that the "old-timers" are running this town to suit themselves. It is not only untrue but unfair - unfair to those who are in office now and unfair to those who would honestly like to help but are kept back by the whispering campaign that says those offices are closed to all but the "old-timers". ANYONE WHO IS INTERESTED can come to any meeting of any organization and "declare himself in on the deal" by merely being present.

This newspaper is an example of that. If you don't like the way this paper is run, or if you don't like its policy, why not attend the Journalistic Club meetings and air your grievances as a member of that club. We all welcome constructive criticism, and we are all willing to be shown where we are wrong, but it makes us a bit resentful to be the object of a lot of baseless accusations.

DON'T BELLYACHE COOPERATE

A STATEMENT FROM OUR MANAGER
REGARDING SALESMEN

Fellow Greenbeltians:

Solicitors, canvassers or peddlers are not permitted to work in Greenbelt, except by written permission of the management.

This regulation has been adopted solely for the benefit and protection of the citizens of our community.

Recently we have had some complaints that our people have been annoyed - and some even defrauded by certain solicitors or salesmen.

Calling attention to section 6 of the "Rules and Regulations" in your lease, we again request you to ask any salesman to show you his written permit from our office. Read the letter carefully before giving it back to him. If he does not have such permit, please notify us at once. This does not apply to laundry agents or representatives of dairies, as we do not feel that they come within the classification referred to above.

Please help us to help you.

Roy S. Braden
Community Manager

Letter to the Editor:-

True cooperation - let us see what it is and what we as individuals may contribute towards its success.

First; Every issue, idea, plan or belief has its pros and cons. Now before one can ever hope to cooperate, each must be given an opportunity and equal right to express his views. They may be right or wrong. But whose duty is it to say they are right or wrong? Certainly not yours or mine as individuals is it to pass final judgment. Then let us at least give each view the justness it deserves and grant that each is sincere in his own right. Then as to how the majority wishes let it be so (with the presumption that it may not encroach upon the personal rights and privileges of any one person) and let no person hinder its full operation, that in the end it may either be proven right or wrong.

Second; If a person is capable of meeting his fellow citizen with a greeting of true comradeship, regardless of what differences of opinion may have

THE COMPLETE MACHINE

By Mary E. Van Cleave

There are three types of people who have something of value to give to humanity. They are the dreamer, the thinker, and the worker.

The dreamer conceives the idea; his is the mind that sees the model, and though he usually lives with his head in the clouds--he is the parent of all things. Then the thinker takes the idea the dreamer has given him, and he thinks out its practical side, its use, the help it will be to humanity and the possibility of its manufacture. Next comes the worker who takes the blueprint or diagram given him by the thinker and converts it into a material thing. He makes the dream a reality.

Most people are only one of these types, but we find a few who possess the qualities of all three. In the careers of Archimedes, Marconi, and Edison, the dreamer, thinker, and worker are all present. In Columbus, who first dreamed, then studied and thought, and at last worked out and made his dream of an America a reality, we find a striking example.

But we who only have one thing to contribute, those of us who only sit and dream, those of us who only think and study, those among us who work, we each must give our utmost and so be sure of doing our part, of upholding our type in the complete machine - a world of dreamers, thinkers, and workers.

existed, then certainly he can be accepted as a citizen, truly of which we can point with pride to have in our midst.

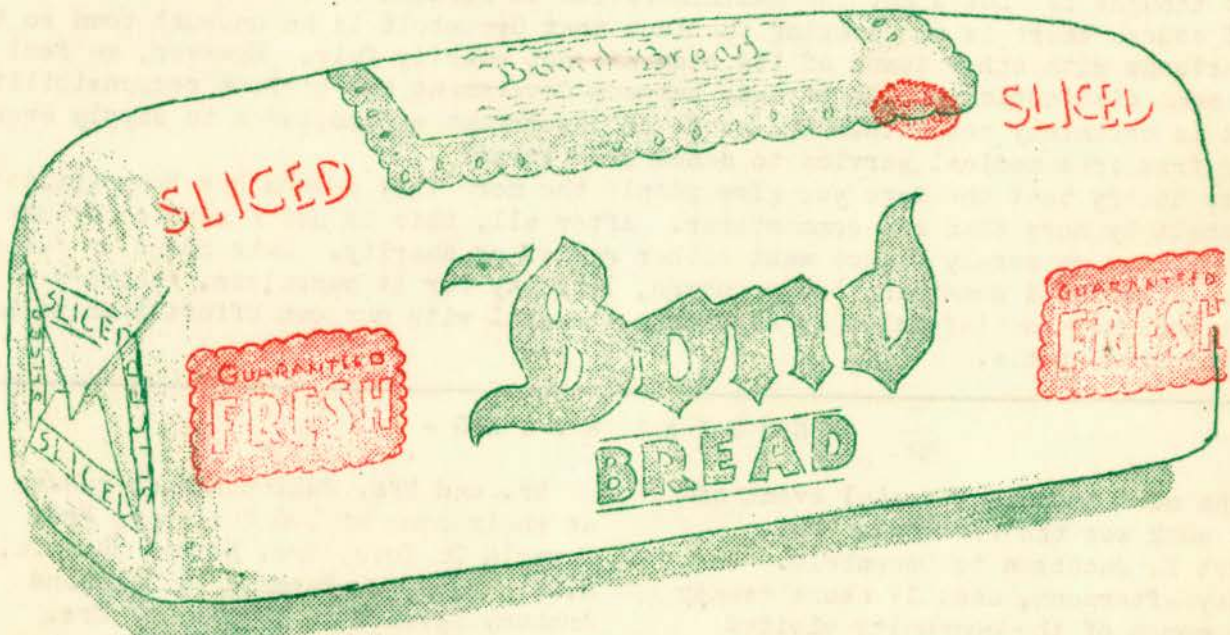

In other words let each and every one be tolerant. That may be one of the true basic principles of real co-operation. May these ideals prevail in our community, one in which we are fortunate to dwell and supervised by a most capable staff. Then as individuals may we carry thru these principles in time to come.

L.G.P.

DO YOU KNOW THE....

4 EXTRA VALUES

YOU GET WHEN YOU ASK FOR
A LOAF OF....

1. **QUALITY** ...Best wheat flour, whole milk, the finest yeast, pure shortening, sugar and salt go into every loaf of Bond Bread--listed and guaranteed for purity right on the wrapper!

EDITORIAL

It has become apparent to us in the last few weeks that many of our citizens seem to believe that the funds of the "Government" are inexhaustible. Whenever a group or organization feels in need of equipment or funds to carry on their program their first thought is "Let's get the Administration to furnish it".

Of course there is no escaping the fact that Greenbelt is an unusual town so that comparisons with other towns of its size are not exactly fair. However, we feel that some distinction should be made between Government and citizen responsibility.

It is certainly not within the scope of Government expenditures to supply everything from free medical service to dance orchestras.

The theory that the more you give people the more they demand has been applied to Greenbelt by more than one commentator. After all, this is not a slum clearance project, and we surely do not want either relief or charity. Lets stand on our own feet. If we need something badly enough, lets pay for it ourselves. There's a great deal more satisfaction in achieving the goal with our own effort than to have it presented gratis.

- SOCIAL NOTES -

The most important social event of last week was the arrival of Mrs. Robert E. Jacobsen to Greenbelt. On Monday afternoon, Jan. 17 about twenty five women of the community visited Mrs. Jacobsen in her new home at 1-C Gardenway to welcome her to Greenbelt. Each of the visitors presented Mrs. Jacobsen with a gift to help toward furnishing her kitchen.

On Saturday evening, Jan. 22, members of the Council entertained Mr. and Mrs. Jacobsen at a buffet supper given at the home of Mr. and Mrs. Sherrod East of 33-L Ridge Rd. Other guests were Mr. and Mrs. Roy Braden.

Mr. and Mrs. Harry Wood of 58-J Crescent Rd. announce the birth of a new baby boy, born Wednesday Jan. 19th at the Sibley Hospital. Mrs. Wood and her latest son returned to Greenbelt Saturday, Jan. 22.

Mrs. Harry Fleisher of 6-C Hillside Rd. left yesterday for a visit with her parents in Philadelphia. She is expected home the end of the week.

Mr. and Mrs. Julian had as guests at their home at 1-G Northway, Mrs. Carmela Di Toro, Mrs. Nettie Caranfa, Gloria Caranfa, Carmela Di Toro and Anthony Caranfa, relatives of Mrs. Julian from Philadelphia. It was a particular occasion for celebration as Michael M. Julian Jr. became four years old on the 25th of January.

We regret to announce that Tommy Fulmer, youngest son of Mr. and Mrs. O. Kline Fulmer of 37-D Ridge Rd., is now in the Episcopal Hospital having undergone an operation for mastoid.

Mrs. Paul Blanchet and Miss Renee Blanchet have just returned to their home in Philadelphia, Pa. after a week's visit with Mr. and Mrs. John Resnicky of 37-H Ridge Rd. Weekend guests were Mrs. Resnicky's mother and sister of Penn.

Mrs. Carroll, Mrs. Falkenburg and Mrs. Mitchell attended the covered-dish supper given by the Girl Scout Leaders' Association of Prince Georges County in honor of the County Council at the Olive St. School, Hyattsville.

HOUSEHOLD HINTS

At the annual meeting of the Credit Union last week, it was pointed out that many family budgets were severely crippled by the various payments to different companies for goods bought on the installment plan. Several years ago home owners found that by placing their problem in the hands of a good financing company it was possible to group all their various payments and thereby make their budgeting problems far easier. This same method could be applied to our household debts.

By borrowing a sufficient amount from the credit union to cover all debts now being paid to various firms on the installment basis, it would be possible to cut down on interest for carrying charges. It would also be far easier to make one monthly payment to the Credit Union than many payments to several creditors.

In installment purchasing has been made extremely attractive by rates of small payments but if cash is paid you save from one-third to one-half the cost. The Credit Union has indicated that they were anxious to act as a medium through which family finances could be studied and placed on a more stable basis.

SCHOOL FACULTY ENTERTAINS
MISS MAUDE SMITH

Miss Maude Smith, who has been acting in the capacity of consultant to the faculty of the Greenbelt Elementary School, was the guest of honor at a luncheon given recently in the Home Economics Room. Those attending the luncheon were members of the faculty, Miss Reed, Principal of the school, Miss Smith and Miss Ollie Hoffman who has been working in conjunction with the Junior Cooperative Stores.

Following the luncheon, Miss Smith and Miss Hoffman visited the classrooms and observed methods of teaching. At the close of school, a meeting was held at which Miss Smith offered constructive criticism and outlined plans to be used in the next semester. Miss Smith is the principal of the Parkside School in Montgomery County, Md., where the same methods of progressive teaching have been employed.

RECIPES

Mrs. Annis Murdock submits the following recipe for French Pastry.

Parisian Puffs

$\frac{1}{2}$ cup flour
Pinch of salt
 $\frac{1}{2}$ cup water
 $\frac{1}{4}$ cup butter
2 eggs

Sift flour, measure; sift again with salt. Place water and butter in sauce pan and bring to boil. Add flour to boiling liquid, all at once. Remove from heat and beat until mixture forms a ball and leaves side of pan. When lukewarm add eggs, one at a time, beating mixture to a smooth paste between each addition. Drop three small cream puffs from tip of teaspoon on a greased baking sheet, close together so they will bake as one. Bake 15 minutes in hot oven 425 degrees. Then 10 minutes at 400 degrees. When cool slit on one side of each puff and fill with different flavor of cream. Dust tops with powdered sugar. 12 Cream puff triplets.

Filling

1 cup whipping cream
2 T sugar
3 T raspberry jam
Drop red coloring
1 drop peppermint flavoring
Drop green coloring

Whip cream until stiff. Add sugar. Divide cream in 3 equal parts. To one part add jam and red coloring; to second, peppermint and green coloring, have third plain.

THE GOOD NEIGHBOR

A wonderful spirit of neighborliness is apparent in Greenbelt. Two examples of this have been brought to our attention, Mrs. Berkalew of 33-H Ridge Rd. spent the better part of several days taking care of the Brosmer household during a siege of illness. Mrs. Stone of 6-A Hillside Rd. took over the household duties of the Whiteman family when Mrs. Whiteman was taken with a bad attack of influenza.

Undoubtedly, many other kindly neighbors are doing such deeds every day. Too often these are done so quietly that no one is aware of them.

A MOTHER'S PRAYER

--
by Inez Barclay Kirby

Oh, give me patience, when the little hands
Tug at me with their ceaseless small demands.
Oh, give me gentle words and smiling eyes,
And keep my lips from hasty, harsh replies.
Let not confusion, weariness, and noise
Obscure my vision of life's fleeting joys,
That when, in years to come, my house is still,
No bitter memories its rooms may fill.

MOTHER'S CLUB

Sixty-one mother's of Greenbelt, met Tuesday evening, Jan. 18, for the purpose of organizing a Pre-School Study Group and School Study Group. Twenty mothers subscribed for Parent's Magazine.

Mrs. Theodora Murray was chosen President of the Pre-School Group; Mrs. Hasen, Vice-President; and Mrs. Lester Hayes, Secretary and Treasurer. Meetings will be held the first Wednesday of each month at 7:30 P.M. in the School Social Room.

The School-age mothers appointed Mrs. Benafiel as President; Mrs. Morgan, Vice-President; and Mrs. Frank Harper, Secretary and Treasurer. This group will meet the third Wednesday of each month at 7:30 P.M. in the Social Room.

A delightful program was presented. Mrs. L. Palmer in her charming and most gracious manner sang two numbers. Mrs. Gale reviewed an article from Parent's Magazine, "Can Mothers have Time for Fun", Mrs. Coblentz, who studied and taught piano in Germany, played two piano selections. Mrs. Sherrod East gave an interesting talk on Kindergarten, its origin and the new ways of teaching children to work with one another.

The next meeting of the Pre-School Group will be held on Feb. 2nd; the School-Age Group will meet on Feb. 16. It is hoped that each mother will make a special effort to attend at least one of these meetings.

Visitors to Greenbelt inquire sometimes "What do you do for means of amusement here? A pertinent answer would be "We Organize".

P. T. A. MEETING

The Parent-Teacher's Association held their second meeting at the school, Thursday evening Jan. 20th. A report of the By-Laws Committee was read and approved. The following officers of the Association were elected: Mr. D. F. Peeler, President; Miss Craig, Vice-President; Mrs. L. Palmer, Secretary; and Mrs. Oscar Johnson, Treasurer.

Mrs. Reed, Principal of the Grade School outlined the methods of teaching and the aims and purposes. She also announced that Achievement Tests would be given to all children from the fourth to the seventh grades on Jan. 25th, 26th and 27th.

The Executive Committee will meet Thursday, Jan. 27th, for the purpose of drawing up a program and appointing standing committees. The next meeting as provided for in the By-Laws will be in February, the exact date will be set at a later time.

HAZARDS ABOUT THE HOME

--
By Maury Fontaine

In America, motor vehicles take second place as cause of permanent disabilities.

ACCIDENTS IN THE HOME Still hold first place -- with an amazing lead. In claiming lives they are nearly equal.

The Planning for Greenbelt is outstanding in that most of the hazards commonly found in homes have been eliminated. However, a few items need consideration now.

This week your attention is called to: SLIPPING ON THE STAIRS.

Provide your stairway with stair pads; use the handrail and keep the hall lighted.

Protect small children by use of extension gates at the entrance of stairs and avoid excess wax (if wax is used on the pads be sure it is well rubbed). It is safer to substitute for wax a thin coat of shellac. Use no loose rugs near either landing.

DON'T WAIT FOR AN ACCIDENT TO BE YOUR REMINDER!

BALANCING THE BUDGET

by Berthan Maryn

The following is the minimum-cost adequate diet. In order to meet all the nutritive needs as cheaply as possible, this diet contains a large quantity of cereal products with milk as its basis. Sufficient amount of vegetables, fruit, eggs, lean meat, and fats are used to found out the calories.

- Milk: fluid or corresponding quantites of canned or dried milk, or cheese 17½ qts.
- Vegetables and fruits:
 - Potatoes, white and sweet 11 lbs.
 - Tomatoes and citrus fruit 4 lbs.
 - Leafy green and yellow vegetables 7 lbs.
 - Dried beans and peas, peanut butter 2 lbs.
 - Dried fruits 1½ lbs.
 - Other fruits and vegetables 7 lbs.
- EGGS 1-1/3 doz.
- Lean Meat, Poultry and Fish: 4½ lbs.
- Flour and cereals, including bread, crackers, rice, macaroni, etc. 15 lbs.
- Fats: butter, margarines, oils, salt pork, bacon, etc. 3¼ lbs.
- Sugars: jellies, jams, honey, syrup 3½ lbs.

Sample Menu for Above Diet

- Breakfast -
 - Tomato or orange juice (children)
 - Rolled oats French toast-syrup
 - Milk-children Coffee-adults
- Lunch or Supper -
 - Creamed chipped beef or corned beef
 - Potatoes boiled in jackets
 - Whole wheat toast Milk-children
- Dinner -
 - Scrambled eggs or egg salad
 - Cabbage Bread and Butter
 - Hot coffee cake
 - Milk-children Coffee-adults

FROM A PURELY MEDICAL STANDPOINT

We would like to give a blow by blow description of the last medical meeting, but time and space prevents, and we must resign ourselves to commenting on the high lights of the free-for-all.

Lets invite the foremost economists here to gather material to write a chapter about us in their next publication. Our suggestion for a title would be "Rugged Individualism on a Cooperative Basis".

We invite our readers (if any) to write a dissertation on "Medicine versus Medical". We admit we are confused, but there seems to be, aside from the minor point that one word is a noun and the other an adjective, a very definite difference. Please do get us straightened out on this.

Famous last words - by George Bauer. "Something is decidedly wrong here". We agree! We noted with interest one of the 260 medical plans (there are some 260 families here) provides for 20 babies a year. The ladies have called a meeting to be held in the near future to receive applications for this year's crop. Anyone with twins in their family background are ineligible as that would upset statistics. It has been suggested by several interested parties that we draw names - the remainder of the contestants to go home to mother until next year.

Health insurance might have been a success here, but since we've started taking down our back hair in public, we question if anyone would take on the risk of our retaining life, liberty or limb.

The next really great need (?) of our not-yet-formed Medical Association is By-Laws. Braddock and Farr could render valuable aid. Our first thought had been to get rules from a football team, but we are now convinced that this is no sissy organization so by all means lets get the latest dope on foul and fair punches. A prize fight ring could be constructed convenient to the door, contenders to furnish their own weapons. For our less publicistic proponents of medical plans - but none the less ardent - we might furnish a checking department for good manners, if they were so far as to forget themselves and bring any along. S.D.C.

Please refer all calls for the Employment Service during the next week to Mrs. Coff at 4801.

BUREAU OF COOPERATIVE MEDICINE
OF THE COOPERATIVE LEAGUE OF THE UNITED STATES OF AMERICA

New York City.

January 17th, 1938

Office of the Secretary

Editor The Cooperator:

It was with much astonishment and regret that I noticed the item "What Price Medical Attention" over Mr. McAchren's name, in the Greenbelt "Cooperator" of January 12th. May I say that Mr. McAchren's points are not well taken, for they arise, in the main, out of a misconception of the purposes of the proposed health plan.

The object is not solely one of moving a physician into "virgin territory". The problem is a more serious one, which would not be solved merely by having the physician within the town limits. It is a question - pure and simple - of how the citizens of Greenbelt can assure themselves of the most satisfactory medical care.

It is common knowledge (susceptible to proof) that medical bills too often impose a serious financial burden, without giving the patient any assurance that the care rendered was adequate. It is common knowledge (also susceptible to proof) that despite the presence of medical facilities and despite personal knowledge that a doctor is needed, people do not seek necessary care, and the principal reason for such a condition is fear of the resulting bill.

No individual knows when he will be sick or what the cost will be. He cannot budget illness, acting by himself, but in conjunction with others, the picture changes, for taking a group of people, it is both feasible and practical to put the costs of medical care on a budgetable basis, and thru this means, remove the principal deterrents of the receipt of adequate care.

The proposed plan in Greenbelt does this, and goes a step further. It provides the medical facilities for Greenbelt in such a way that there will be every incentive to render adequate and complete care, on the part of the patient to seek it, and on the part of the doctors to give it.

After examining the type of medical services given under ordinary circumstances today, one finds that the preventive aspects of care are sadly neglected. It is only under plans similar to that proposed in Greenbelt, that this most important aspect of medical service can and is being given. The plan is more than a medical care plan. It is a plan for health protection.

With regard to the fear that the doctor will abuse his position, that is unfounded in experience. I imagine that Mr. McAchren is employed on a salaried basis, and does not himself take the attitude that he expects the doctor to take. I imagine that his opinion is derived from a misconception already mentioned. As to the matter of home calls, might I say that they are not as frequent as one might expect, and are minor expenses, in view of this fact, and also because Greenbelt is a compact Community.

I submit that the plan presented is practical, for it has been tested and has worked, giving incalculable benefits to those who have subscribed to it.

Yours very truly,

(Signed) MARTIN W. BROWN
Secretary

NEWS OF CO-OPS!

STEEL WORKERS CONVENTION ENDORSES CONSUMER COOPERATIVES

Members Urged to Join Co-ops to Insure Better Living Standards

Pittsburg -

The steel Workers Organizing Committee, meeting here for its annual convention December 14, 15 and 16, unanimously endorsed the Consumers Cooperative Movement and urged its members to join consumer cooperatives "to protect the workers and their families, as consumers of goods, in terms of lower prices and higher quality of goods."

INTERNATIONAL COOPERATIVE YEARBOOK SHOWS

PROGRESS OF CO-OPS THROUGHOUT THE WORLD

Membership in cooperative associations throughout the world grew from 20,000,000 in 1917 to 70,500,000 in 1937, according to The Peoples Year Book for 1938 just published by the Cooperative Wholesale Society, Manchester.

The Peoples Year Book is widely known as the international handbook of the cooperative movement. It contains reports from cooperatives in 38 countries where the co-ops are affiliated with the International Cooperative Alliance. It also carries very complete reports of the activities of the English and Scottish cooperative movements. The Year Book is available in the United States through the Cooperative League of the U. S. A., 167 West 12th Street, New York; cloth cover \$1.00, paper 65¢.

N. J. MEDICAL SOCIETY OPPOSES EXTENSION OF PUBLIC HEALTH SERVICE

In letters recently sent to its members the Medical Society of the State of New Jersey took the position that public health activities of local governments should be limited to the maintenance of institutions for the care of the insane, epileptics, and those having communicable diseases. The Bureau of Cooperative Medicine condemned this attitude as contrary to the present trend and inconsistent with the position taken by the American Public Health Association and the American Medical Association.

NATIONAL COLLEGE YOUTH ORGANIZATIONS DISCUSS COOPERATIVES

Speaking before the National Assembly of Student Christian Associations meeting at Miami University and Western College, Oxford, Ohio, December 27 to January 1, Wallace J. Campbell, Assistant Secretary of The Cooperative League of the U. S. A., called for the organization of eating, housing and other types of cooperatives on college campuses to reduce the high cost of college education and challenged the assembled students to organize "A Crusade Against Poverty" in America as powerful as the Student Volunteer Movement for Foreign Missions of a generation ago. "The youth of today", said Mr. Campbell, "must take hold of the steering wheel of their own economic destinies. College graduates should lead the way in organizing for economic democracy as our forefathers organized for political democracy."

LEGION COMMANDER'S PHONE INSTALLED

Commander of the Greenbelt American Le-

gion, announces to his friends that a telephone has been installed in his home.

The number is Greenbelt 5406.

INVESTMENT BANKER RECEIVES MANY CALLS
TO SPEAK ON GREENBELT

Baltimore Lawyer Makes Hobby
of Digging Up Facts

--
By Louis Bessemer

W. T. Childs, Baltimore investment banker, will speak on the "Greenbelt Development" before the Baltimore Uptown Lions Club next month. Last week Mr. Childs spoke on the same subject at the Mount Vernon Place M. E. Church Young People's League. A few weeks before it was the Baltimore Advertising Club and so it is just "one club after another" these days for Banker Childs.

This naturally raises the question "how come?" What makes Mr. Childs such a keen Greenbelt booster? The answer is that Childs gets the facts.

There is no end of criticism leveled at Greenbelt. Much of it emanates from political motives, but most from sources that champion the poor, broken-hearted taxpayer!

These "poor, downtrodden taxpayers," it usually turns out, are the wealthiest ten percent in any community. But these few will mislead thousands of conservative business men, but not Mr. Childs!

When Childs speaks on Greenbelt, not a few like to put heat under him by accusing him of being a "New Dealer." With his liberal outlook, he goes right ahead, faces the barrage of emotional thinkers--and begins talking facts and figures while many of his critics back up, and squirm!

Considered even as an experiment, Childs believes Greenbelt has enormous social implications, and that the economic benefits which all business derives from the project, and the services it has rendered the unemployed in a great crisis, far outweigh the costs.

As a former deputy comptroller of the City of Baltimore, trained in finance, and an able lawyer, Mr. Childs is a staunch advocate of a housing program for Baltimore to aid the wage earner and the business man. Regardless of the opposition he moves directly forward championing this cause.

ANOTHER "COOPERATOR" BEGINS PUBLICATION

The Eastern Cooperative League Cooperator
Begins Volume 1 of Monthly Publication

The Eastern Cooperative League has started publishing a monthly newspaper as the official "News-Organ" of the League!

The new paper features a full page of advertising for the local store to tie in with and many items of interest to "cooperators".

A staff member of the Greenbelt Cooperator has been chosen as Greenbelt Correspondent for the Eastern Cooperative League Cooperator.

"LET US DANCE THAT OTHERS MAY WALK"

Letter to the Editor:

May each and every financially able resident of Greenbelt contribute to this grand cause by purchasing a ticket to the PRESIDENT'S BIRTHDAY BALL to be held in the local school auditorium on January 29th and sponsored by the local American Legion Post.

The Legion Post does not retain one penny of the net proceeds but their entire net funds go to the National Warm Springs Fund. The Legion is sponsoring this only as a matter of civic pride that our community may be justly represented in this just cause.

The price is 75 cents for single admission and the dance is to be informal. Please do your part by giving the American Legion member your courteous greeting when he calls at your home.

Let Greenbelt really show the country what kind of citizens we are and what we are capable of doing.

GREENBELT AMERICAN LEGION
Adjutant.

NOTICE TO NEW ARRIVALS
IN GREENBELT

If your refrigerator or electric stove do not function properly, do not hesitate to call the Manager's office immediately and adjustments will be made promptly.

February 16	School-age Mothers Circle	7:30 P.M.	School (social room)

Note: The Dramatic Club meeting, which was scheduled for the 26th., has been postponed. An announcement will be made when a meeting is called.

THIS IS A MODEL TOWN!A Visit to the Greenbelt School

The children of Greenbelt are fortunate to have the Greenbelt School for their very own. We are grateful to the architects who designed the school for its grace, simplicity, and its beauty.

The class rooms are sun-rooms and the children are "sun-children" because their faces reflect their happiness. They are happy because to them "school" has the old connotation no longer. "School" has changed so much that to most children it means a place to which they look forward every day. No longer is it a place to which they are shut in for several hours every day to learn abstract things but everything that is learned is vital and related to the concrete.

The children can see plainly how "reading, 'riting and 'rithmetic" are related to every day life. We have right here in Greenbelt a school that has broken away from the outmoded traditional school both externally and internally.

When I went to school years ago, there was a complete break between the kindergarten to the first grade and it still holds true for most of the schools now.

Yes-it is hard to change-but here at last, in Greenbelt, is the beginning.

I sat in on the first grade class in the Greenbelt school and I was amazed. It is the most attractive classroom I've ever been in. The first thing I noticed was that one side of the room consisted of windows. There was a large table in the back of the room with colored beads, scissors, drawing paper, toys, and attractive library books filled with colorful pictures. This was an "informal table" to which the children felt free to go in their spare time. Some finish their lessons before others and the idea is to keep them busy and interested at all times.

The first grade teacher, Mrs. Loretta Alderton, had very colorful pictures with green borders, arranged on the walls, and on the blackboard was a list of the qualities of a good store.

What pleased me very much was the relationship between the children and the teacher. Gone was the rigid discipline of the teacher and the undercurrents of fear and awe in the children. Both the teacher and the children were perfectly at ease.

For the arithmetic lesson, Mrs. Alderton held up two pair of scissors in her hand and asked the children to write down how many they saw. Then she

BIRTH RATE HIGH IN APARTMENT HOUSE
PROJECT IN ARLINGTON, VIRGINIA

Colonial Village Resident Wonders
Whether Greenbelt Is Competing

It is stated by some that Colonial Village, an apartment house project in Arlington, Virginia, last year had the highest birth rate of any place in the country.

In 1937, the "blessed event" occurred to 355 families of the 996 residing there (36 percent).

A Colonial Village resident has inquired of a Cooperator staff member what the birth rate in Greenbelt had been up to the present time.

He said, "Maybe we'll get some competition."

THE POET'S CORNER

The other night, right after the snow fall, I was admiring the shadowy pictures the moon was painting on the snow. The whole town was so white and beautiful, and I was so thankful that I was a part of that town. And as I was considering my fortunate position and the pleasure that I derived from being a citizen of Greenbelt, I thought of others all over the world who were not as fortunate as I. And then there came to mind the news item that described the Spanish soldiers pausing out their lives on snow that must have been just like that before me. The following may not be good poetry, but it is a sincere prayer.

The last white flake its tiny all
Had given to our last snow fall.
I watched the landscape, clean and white,
That shone so brightly tho' 'twere night.
The smiling moon etched shadows clear
Of white clothed trees. Then did appear
Before my eyes a scene of snow
On other hills. And there did show
Against the white, another hue.
The red of blood was running through
The virgin white on Teruel,
Where brother, loving brother well,
Could yet bespray the whitened hill
With brother's blood. The same snows fall
And clothe the world like friendly shawl
Let's pray our snow is always white
And never red from senseless fight.

L.B.Sawyer

VISIT TO MODEL TOWN'S SCHOOL

(Continued from Page Fifteen)

held up four, six, and then five. This method teaches them to distinguish groups of objects at a glance. It ties arithmetic up with what the children can actually see and in this way makes it much easier for them.

Mrs. Reed, the principal of the school, explained that the children learn from projects. When I visited the school, the project they were working on was a store. With that as a subject one can see how the various subjects are correlated. Reading is necessary so that they can read the labels on the cans, the prices of food, etc.; drawing and building are necessary to construct the stores; arithmetic, -to be able to pay for what is bought and get the right change, -and so on.

Some of the children, when asked whether they had learned arithmetic that day, didn't realize that they had done so. They were so engrossed in the project as a whole that they didn't single out arithmetic as one of the things they had learned. To teach children in such a way that they think they are playing is progress indeed.

Betty Dickerman

LITTLE LYNN WORLEY GRADUALLY IMPROVING

Doctors Say, However, Grave Situation
Still Exists

Lynn Worley, 3 $\frac{1}{2}$ year old daughter of Mr. and Mrs. L. W. Worley, 2-J Eastway, is gradually improving according to word received late Monday night.

The child was taken to Children's hospital Saturday, January 15 with pneumonia and it developed that she was suffering with meningitis.

Transfusions have been made several times. Each time by Greenbelt neighbors of the Worley family.

The mother has been constantly at the bedside of the child, taking a bed at the hospital to rest at night. Mr. Worley has also been anxiously standing by during the day at the hospital.

The child's first symptoms were found when she complained with ear trouble.

Prince Georges County health officials have stated that this form of meningitis (streptococci infection) is not contagious.

A STEP NEARER MEDICAL PLAN

(Continued from Page One)

that the committee had proposed a considerable reduction in rates. If this proposal is approved as being financially sound, the monthly rates finally accepted may be as much as one third lower than those in the original plan.

PROFESSOR OOZLE OOZES ON

Human Psychology And Its Application
To People

By J. D. Oozle, Ph.D.

For some time it has been felt by the author that there is a definite relation between human psychology and people. A knowledge of human psychology is then useful in understanding the actions of men and women over 25 as well as under 25, and also children.

Let us illustrate with an interesting application. Jones, a man of average intelligence, has drawn the attention of some noted psychiatrists by his peculiar mentality. Although of a calm and even disposition he becomes very ruffled when tapped on the bridge of the nose with a number 5 monkey wrench.

This unusual reaction springs from the fact that when he was five years old (going on six) he was bitten on the finger while feeding an old chocolate éclair to a monkey. Undoubtedly he developed an undue aversion to anything that brings up an association with that unfortunate incident. Once the situation is explained to him his abnormality should vanish. If it doesn't, the wrench should be applied on the cranium and with more vigor.

EXTRA COPIES OF THE COOPERATOR

If anyone did not receive his or her copy of The Cooperator, or if you desire extra copies, call Greenbelt 3021 or go to 35-G Ridge Road and contact Robert D. Hayes.

THE GREENBELT TOWN DIRECTORY WILL DEFINITELY BE ISSUED ON FEBRUARY 1.

GREENBELT COUNCIL TO HOLD SPECIAL MEETING FOR ADOPTION OF TOWN BUDGET

Tentative Budget To Be Posted In Post Office Until Special Meeting

The Greenbelt Town Council met Monday night January 24, and discussed a tentative draft of the town budget for this fiscal year (ending December 31, 1938).

Town Manager Braden presented the budget to the Council which will hold a special meeting Monday night, January 31, at 8 PM for the purpose of adopting its measures.

The public is invited to see a copy of the budget which will be posted in the Post Office until the Council holds its special meeting.

GREENBELT'S FIRST SNOWFALL

By Lillian Schwartz

Among the firsts of Greenbelt, I would like to list the snowfall of January 19. Very little can be said of the first few hours, but during the afternoon, when the walks and grounds were covered with a blanket of snow, imagine the thoughts running through us, the pioneers of Greenbelt.

Just wait until Junior is asleep. Hubby and I will take his sled and look for nice hilly places, and we will have a good time. Indeed Mr. & Mrs. Land and Mrs. Hesse carried this plan out to the letter. I am sure the boys and girls possessing sleds did not calmly walk home from school, because it was only a few minutes after 3:30 that afternoon, when boys, girls and young toddlers were on the sleds just having the time of their young lives and saying that there is not another place in this wide world where we could have such fun.

Remember waking on the morning of the 20th and looking out of the window? Could you wait until you were out in the open and just walk and thrill to the sights that greeted you? Fathers, Mothers and children upon sleds, having a most wonderful time and wishing, most probably, that the day would never end.

But alas, the sun shone too strongly, and by the afternoon the snow was gone.

DEPARTMENT OF AGRICULTURE

WASHINGTON

January 22, 1938

Dear Mr. Sowell:

I am glad to have copies of the Greenbelt Cooperator and have been interested in watching what you are doing with the publication and what the people at Greenbelt are accomplishing. I hope you will continue to let me have copies from time to time.

Sincerely yours,

(Signed) H. A. Wallace

HOUSING ADMINISTRATOR STRAUS CALLS
ON TWO GREENBELT FAMILIES SU'NDAY

Nathan Straus, Administrator of the U. S. Housing Authority, spent an hour in Greenbelt Sunday, Jan. 23.

Mrs. Straus, wife of the Administrator, and Dr. Bernard Sachs, father of Mrs. Straus, accompanied the government official on his visit here.

"We know a good deal about your cooperative stores, and your school,-- and on this visit, with our limited time, we'd just like to go over the place, touching on a few areas," Mrs. Straus said.

They were shown around from a motor car, and their questions were numerous about rental rates, types of homes, garages, landscaping, and the number of families moving into Greenbelt.

Their request to visit two typical homes was granted when they stopped at the home of Yale B. Huffman, where they chatted with Mr. and Mrs. Huffman. The Huffman baby interested the distinguished visitors, who expressed regret at finding Mrs. Huffman ill in bed. Before departing the visitors looked over the home of Mr. and Mrs. Louis Bessemer.

GREENBELT CHURCH NEWS

The Greenbelt Community Church will hear Rev. Morris S. White, Congregational minister of Chevy Chase, Md., preach next Sunday, Jan. 30.

Dr. L. S. Dodson, director of the Sunday School, welcomed Canon Anson Phelps Stokes of the Washington Cathedral to the pulpit last Sunday. Canon Stokes who preached on "Our Duties and Our Privileges as Christians in the Light Revealed by God," spoke of the illuminating, warming, stimulating, and healing influences of Divine Power, and Divine Wisdom.

Canon Stokes was accompanied to Greenbelt by his brother, a distinguished New York architect, who sat through the church service.

Dr. Dodson announced that the Organization Committee, with ten or more members, will meet tomorrow, Jan. 27, at the school music room, where plans will be considered to arrange a church program from now until Easter. Attention will be given to calling in a minister to serve the community on a part-time or full-time basis. The meeting is scheduled for 7:30 P.M.

Canon Stokes and his brother, expressing a desire to see "at least one Greenbelt home" stopped for a few minutes to "look in" the home of Mrs. Buck. The visitors returned to Washington.
